1(a)	AO1 (4 marks) Award 1 mark for identifying a reason why globalisation creates cultural erosion, and a further 3 marks for expansion up to a maximum of 4 marks. For example: • TNCs bring new products and services (1), which often includes largely western cultural ideas (1) which can push out local industries (1) resulting in the gradual disappearance of traditional artefacts/services/languages (1) • Joining global production chains (1) leads to environmental changes/pollution (1) which can result in loss of natural habitats (1) which can diminish traditional practices for hunter/gatherer communities (1). Accept any other appropriate response.	{4}

1(b)	AO1 (3 marks) / AO2 9 marks) Marking instructions Markers must apply the descriptors in line with the general marking guidance and the qualities outlined in the levels-based mark scheme below. Indicative content guidance The indicative content below is not prescriptive and candidates are not required to include all of it. Other relevant material not suggested below must also be credited. Relevant points may include: AO1 • TNCs, given that they are trans-national, are at the core of globalisation and profit from the movement towards free trade and lobby for privatisation, deregulation and free trade • they profit from free-market liberalisation and privatisation because it increases their sales and reduces their costs • there are benefits for the owners/shareholders of TNCs • there may be benefits for the workforce and citizens in communities in both developed and developing countries • there will also be costs in both developed and developing countries, which may be environmental but also social and economic AO2 • corporations are profit driven by definition and seek to cut costs hence the importance of outsourcing which brings jobs but they are often poorly paid
