comprehensive course for students who need to use Japanese in a real life business environment Almost a decade after its first edition Japanese for Professionals has been revised and updated to reflect current business scenes Moreover learners can now practice their listening skills with the newly added audio for the dialogues and exercises from the text Eight lessons introduce common business situations with the emphasis on how to communicate with Japanese colleagues and clients Each lesson is consisted with two parts Part 1 is set to observe the dialogue and Part 2 is set to further enhance comprehension of the dialogue with exercises Precise definitions for all new vocabulary and lucid explanations of grammar idioms and cultural differences provide the reader with powerful communication tools for the office Exercises and quizzes have been included to help students check their progress Busy professionals will find the bilingual glossaries a useful reference even after completing all the lessons in this clear and extremely helpful textbook Japanese for Professionals is specially designed for learners who are familiar with basic Japanese and ideally be at level N2 or N3 of JLPT Japanese Language Proficiency Test

Japanese for Busy People III AJALT,2021-06-15 Building on the grammar and vocabulary presented in Volume II Japanese for Busy People III will enable readers to initiate sustain and close most basic conversations With numerous speaking listening reading and writing tasks quizzes and illustrations to make the learning process both fun and effective this book prepares readers for Level 3 of the Japanese Language Proficiency Test **Cutting Edge - Pre-Intermediate** Araminta Crace,Sarah Cunningham,Peter Moor,2014-02-24 Engaging texts new video content and a comprehensive digital package are just some of the features that make this fully revised edition even more effective **Cutting Edge 3rd Edition**

vocabulary much more complex than what they have studied before Such grammar and vocabulary do not appear as frequently in everyday conversation as those words and structures they have learned up to this point necessitating that they spend ample time on review Moreover learners at this stage are expected to become familiar with verb tense and aspect time expressions conditional clauses and other topics that require them to have a solid grasp of context and speaker intent if they are to fully understand the differences in meaning conveyed by each Such points cannot be mastered by reading through grammatical explanations alone In short the mid beginner level is a difficult one for many adult learners who unlike students in school have neither time nor opportunities to take repeated tests or to otherwise gauge their progress Japanese for Busy People II Revised 3rd Edition helps overcome the above obstacles through grammar and content topics carefully selected to be appropriate to learners at this level of Japanese proficiency The book is designed so that by practicing talking about each topic learners will gradually and effectively acquire sentence patterns and vocabulary related to that topic Like Volume I Volume II is organized into several large units each covering topics grouped under a particular theme In this way the book enables learners to achieve a well balanced understanding of grammar sentence structure and context

**The Use of Pop Songs in the EFL Classroom** Ornerová Lenka, 2011-03-09

Inhaltsangabe

Introduction I have chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly motivational device When I was a student at a lower and upper secondary school listening to songs in English classes was my favourite activity I have always wanted to be able to understand the lyrics of songs I listened to Later I realized that I have learned a lot from listening to pop songs and analyzing their lyrics Therefore in my diploma project I would like to prove that using pop songs is a highly motivational device in teaching English with instructional value and that students enjoy working with pop songs The theoretical part of this diploma project is based on relevant sources of background literature In the first two chapters the use of songs is described with regard to motivation and the Multiple Intelligences Theory The third and fourth chapter deal with the reasons for using songs and their classification In the last two chapters of the theoretical part pedagogical principles of using pop songs in class as well as the pros and cons of teaching through pop songs are presented The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom In the first part of the research I present an analysis of questionnaires which I distributed among English teachers at lower and upper secondary schools and grammar schools In the second part of the research I describe students attitudes to pop song based lessons which I taught during my teaching practice at grammar schools In the third part of the research I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools In addition I present a self developed teaching material containing a list of pop songs suitable for the EFL classroom In the last part of the practical part I answer the research questions and provide some implications for my own teaching
