Bickerton, 2012-12-13. European integration confuses citizens and scholars alike. It appears to transfer power away from national capitals towards Brussels, yet a close study of the EU reveals the absence of any real leap towards supranationalism. The EU is dominated by cooperation between national representatives and national officials, yet it continually appears to us as something external and separate from national political life. This book takes on these paradoxes by arguing that European integration should no longer be studied as the transcendence of states or as merely an expression of national interests. Rather, we should approach it as a process of state transformation: from nation-state to member state. The book explores in detail the concept of member state, arguing that it provides us with the best tool for understanding the European integration process. Member states differ from traditional nation-states. They are not founded on the idea of popular sovereignty or the nation. They rest upon the idea that the governance of domestic societies requires external frameworks of rule that can bind the hands of national politicians. National authority is thus exercised through external rules and norms. Member statehood differs from earlier forms of statehood because it rests upon a presumption of conflict between state and society, rather than an identity of interests between ruler and ruled. The book outlines in empirical detail these mysteries and paradoxes of European integration. It then outlines in detail the theory and history of member statehood. It applies the concept of member state to the study of two EU policy areas: macro-economic governance and foreign and security policy. **Make History** Art Worrell, Paul Bambrick-Santoyo, 2023-05-03. *Make History with Your Students*. From bestselling author Paul Bambrick-Santoyo and Art Worrell. Uncommon Schools Director of History Instruction comes *Make History*, an inspiring book on how educators can take history instruction to the next level. History teachers face unique challenges in introducing history lessons to students, and they are under increasing pressure to get it right in an age of social progress and social divisiveness. This book is a guide to bring the past to life while teaching students how to make sense of history. Use the ideas and techniques to turn your history students into writers, readers, and thinkers who are ready not only to succeed in college but also to become leaders and change agents. By showing how to teach rigorous, engaging lessons that center student thinking and voice, *Make History* turns history class into the most exciting part of a student's day. Reimagine history education to help students build their own unique arguments about the past. Ask tough questions to help students grapple with difficult historical periods. Set

the stage for authentic discourse that students remember long past the bell Give students the tools to become socially aware build their own identity and think and write like historians Teachers and instructional coaches in grades 5 12 will love this new insightful approach to history one that works for today s classrooms
