Risk And Intelligence Driven And Report:

Cyber Intelligence-Driven Risk Richard O. Moore, III, 2020-11-18 Turn cyber intelligence into meaningful business decisions and reduce losses from cyber events Cyber Intelligence Driven Risk provides a solution to one of the most pressing issues that executives and risk managers face How can we weave information security into our business decisions to minimize overall business risk In today s complex digital landscape business decisions and cyber event responses have implications for information security that high level actors may be unable to foresee What we need is a cybersecurity command center capable of delivering not just data but concise meaningful interpretations that allow us to make informed decisions Building buying or outsourcing a CI DRTM program is the answer In his work with executives at leading financial organizations and with the U S military author Richard O Moore III has tested and proven this next level approach to Intelligence and Risk This book is a guide to Building buying or outsourcing a cyber intelligence driven risk program Understanding the functional capabilities needed to sustain the program Using cyber intelligence to support Enterprise Risk Management Reducing loss from cyber events by building new organizational capacities Supporting mergers and acquisitions with predictive analytics Each function of a well designed cyber intelligence driven risk program can support informed business decisions in the era of increased complexity and emergent cyber threats **Building an Intelligence-Led**

Security Program Allan Liska, 2014-12-08 As recently as five years ago securing a network meant putting in a firewall intrusion detection system and installing antivirus software on the desktop Unfortunately attackers have grown more nimble and effective meaning that traditional security programs are no longer effective Today s effective cyber security programs take these best practices and overlay them with intelligence Adding cyber threat intelligence can help security teams uncover events not detected by traditional security platforms and correlate seemingly disparate events across the network Properly implemented intelligence also makes the life of the security practitioner easier by helping him more effectively prioritize and respond to security incidents The problem with current efforts is that many security practitioners don t know how to properly implement an intelligence led program or are afraid that it is out of their budget Building an Intelligence Led Security Program is the first book to show how to implement an intelligence led program in your enterprise on any budget It will show you how to implement a security information a security information and event management system collect and analyze logs and how to practice real cyber threat intelligence You ll learn how to understand your network in depth so that you can protect it in the best possible way Provides a roadmap and direction on how to build an intelligence led information security program to protect your company Learn how to understand your network through logs and client monitoring so you can effectively evaluate threat intelligence Learn how to use popular tools such as BIND SNORT squid STIX TAXII CyBox and splunk to conduct network intelligence *Risks and Challenges of AI-Driven Finance: Bias, Ethics, and Security*
