Prepared by: [Your Name]

School Name: [Your Company Name]

### I. Objective

Students will understand and be able to apply basic addition and subtraction skills within 100. They will also start to learn the concepts of even and odd numbers.

### II. Materials

- Whiteboard and markers
- Math workbooks
- Number cards (1-100)
- Counters or small objects (e.g., beans, buttons)
- Chart paper
- Pencils and erasers
- Timer
- Educational apps or online games for technology integration

### III. Warm-Up Activity (10 Minutes)

1. Begin with a quick review of counting by 2s, 5s, and 10s. Write the sequences on the board and have students recite them together.
2. Play a quick number game. Call out random numbers between 1 and 100 and have students identify whether these numbers are even or odd.
3. Use number cards to prompt students to come to the board and place the card in the correct column labeled "Even" or "Odd."

Science of Ukraine Head of the UNESCO Chair      Socioscientific Issues Focused Teacher Education Bahadir Namdar, Engin Karahan, 2024-03-30 This book explores place based pedagogies in the context of socioscientific issues in Turkey. From local and global contexts it delves into research based learning activities for science teacher educators offering insights to educators worldwide. The book aims to empower teachers to provide students with learning experiences centered on local socioscientific issues essential for developing scientifically literate citizens. Each chapter showcases effective practices focusing on local topics like gold mining, nuclear power plants, and river pollution. By incorporating socioscientific elements into science lessons, teachers are encouraged to foster students' responsibility, values, argumentation, critical thinking, and awareness. Emphasizing the crucial components of place basedness and relevancy of SSI learning environments, students are guided towards more sophisticated ways of conceptualizing and resolving SSI. The intended audience includes science teacher educators, researchers, and educators devoted to engaging students in meaningful socioscientific learning experiences.      **Summaries of Projects Completed** National Science Foundation (U.S.),      **EPA-430/1**, 1979-05

The book offers an in-depth look into authentic creative and project based learning experiences that have been facilitated by using technology in education in different settings in India, with case studies about opportunities and challenges of implementing ITE in the tribal pockets of West Bengal and Maharashtra, madrasas in West Bengal, government schools in rural Assam, and sites in Uttar Pradesh. It examines the viability and sustainability of using ITE and other digital methods to address the complex education needs of children and address the challenges in the professional development of teachers. It also highlights the creative use of inquiry, project based, collaborative learning, and distance education technologies during the pandemic in government run schools. This book will be of interest to teachers, students, and researchers of education, education technology, digital education, and information technology. It will also be useful for educators, policymakers, educational institutions, EdTech start-ups, and NGOs in the education sector.      **Water Quality Instructional Resources Information System (IRIS)**, 1979      **Federal Register**, 1999-07-23      Water Resources Activities in the United States U.S. Congress.
