

# Interest Groups

Name: \_\_\_\_\_

The USDA serving guide.

## Eat Your Broccoli

Supporters of limiting potato servings argue that potatoes are often served fried or topped with high calorie items like sour cream, cheese, and bacon. They also worry that when students are given a choice between French fries or something like carrots or green beans, they too often choose the fries. Poor eating choices made early in life lead to obesity and numerous long-term health problems like diabetes and heart disease.

### More Please...

Serving sizes in school lunches are based on grade level and age.

## Would you like fries with that?

Opponents of the proposed change offer that potatoes are full of nutritional value, and aren't always served in unhealthy ways. Fries can be baked rather than fried, and baked potatoes can be topped with healthier alternatives, like salsa. They also argue that potatoes are a cheap and plentiful option for a vegetable serving and that limiting potatoes would increase school lunch costs across the nation.

## Interested?

The people on all sides of this argument have an **interest** in the outcome of the debate. That just means they are interested or concerned with how things end up. People pay attention to things that will likely affect their lives.

## How might limiting starchy vegetables like potatoes affect...

### Students?

### Potato Farmers?

### Schools?
