

OFFICIAL VOTER GUIDE

REPUBLICAN PARTY OF SARASOTA COUNTY
PRIMARY ELECTION | August 23, 2022

THE MOST IMPORTANT AUGUST VOTE

Local elections and School Board races are more important than they have ever been. Political leadership closest to the people is most responsive. And as we have painfully seen, if we have the wrong people, children and parents and all our rights are at risk.

CANDIDATES ENDORSED BY THE REPUBLICAN PARTY OF SARASOTA COUNTY VOTE FOR:

Senator Joe Gruters

Joe Gruters is a proven conservative and Sarasota County native facing a primary opponent who lives 120 miles from Sarasota County. Senator Gruters has been a leader in the Florida Senate to make Governor Ron DeSantis' agenda a reality. And as a Sarasota native, he knows the community intimately, unlike his absentee opponent.

School Board

Bridget Ziegler is a wife, mother and proven conservative on the School Board. She will continue to fight for parental rights and against a radical woke agenda.

Tim Enos is a long-time law-enforcement officer and retired schools police chief. He knows how to keep our kids safe and protect them from the radicals.

Robyn Marinelli is a long-time educator as a teacher, counselor and administrator and also knows the current anti-parent radicalism on the Board cannot continue.

History of North Carolina: From 1783 to 1925 Samuel A'Court Ashe,1925

The American South in the Twentieth Century Craig S. Pascoe,Karen Trahan Leathem,Andy Ambrose,2005 In the South today the sight of a Latina in a NASCAR T shirt behind the register at an Asian grocery would hardly draw a second glance That scenario and our likely reaction to it surely signals something important but what Here some of the region s most respected and readable observers look across the past century to help us take stock of where the South is now and where it may be headed Reflecting the writers deep interests in southern history politics literature religion and other matters the essays engage in new ways some

timeless concerns about the region How has the South changed or not changed Has the South as a distinct region disappeared or has it absorbed the many forces of change and still retained its cultural and social distinctiveness Although the essays touch on an engaging diversity of topics including the USDA s crop spraying policies Tom Wolfe s novel A Man in Full and collegiate women s soccer they ultimately cluster around a common set of themes These include race segregation and the fall of Jim Crow gender cultural distinctiveness and identity modernization education and urbanization Mindful of the South s reputation for insularity the essays also gauge the impact of federal assistance relocated industries immigration and other outside influences As one contributor writes and as all would acknowledge those who undertake a project like this should bear in mind that they are tracking a target moving constantly but often erratically The rewards of pondering a place as elusive complex and contradictory as the American South are on full display here *Confederate Political Economy*

Michael Brem Bonner,2016-05-11 In *Confederate Political Economy* Michael Bonner suggests that the Confederate nation was an expedient corporatist state a society that required all sectors of the economy to work for the national interest as defined by a partnership of industrial leaders and a dominant government As Bonner shows the characteristics of the Confederate States political economy included modern organizational methods that mirrored the economic landscape of other late nineteenth century and early twentieth century corporatist governments Southern leaders Bonner argues were slave owning agricultural capitalists who sought a counterrevolution against northern liberal capitalism During secession and as the war progressed they built and reinforced Confederate nationalism through specific centralized government policies Bolstered by the Confederate constitution these policies evolved into a political culture that allowed for immense executive powers facilitated an anti party ideology and subordinated individual rights In addition the South s lack of industrial capacity forced the Confederacy to pursue a curious manufacturing policy that used both private companies and national ownership to produce munitions This symbiotic relationship was just one component of the Confederacy s expedient corporatist state other wartime policies like conscription the domestic passport system and management of southern railroads also exhibited unmistakable corporatist characteristics Bonner s probing research and new comparative analysis expand our understanding of the complex organization and relationships in Confederate political and economic culture during the Civil War *Red State Blues*

Matt Grossmann,2019-10-31 Over the last quarter century a nationalized and increasingly conservative Republican Party made unprecedented gains at the state level winning control of twenty four new state governments Liberals and conservatives alike anticipated far reaching consequences but what has the Republican revolution in the states achieved *Red State Blues* shows that contrary to liberals fears conservative state governments have largely failed to enact policies that advance conservative goals or reverse prior liberal gains Matt Grossmann tracks policies and socioeconomic outcomes across all 50 states interviews state insiders and considers the full issue agenda Although Republicans have been effective at staying in power they have not substantially altered the nature or reach of government Where they have had policy victories the

consequences on the ground have been surprisingly limited A sober assessment of Republican successes and failures after decades of electoral victories Red State Blues highlights the stark limits of the conservative ascendancy

When Movements Anchor Parties Daniel Schlozman, 2015-09-01 Throughout American history some social movements such as organized labor and the Christian Right have forged influential alliances with political parties while others such as the antiwar movement have not When Movements Anchor Parties provides a bold new interpretation of American electoral history by examining five prominent movements and their relationships with political parties Taking readers from the Civil War to today Daniel Schlozman shows how two powerful alliances those of organized labor and Democrats in the New Deal and the Christian Right and Republicans since the 1970s have defined the basic priorities of parties and shaped the available alternatives in national politics He traces how they diverged sharply from three other major social movements that failed to establish a place inside political parties the abolitionists following the Civil War the Populists in the 1890s and the antiwar movement in the 1960s and 1970s Moving beyond a view of political parties simply as collections of groups vying for preeminence Schlozman explores how would be influencers gain influence or do not He reveals how movements join with parties only when the alliance is beneficial to parties and how alliance exacts a high price from movements Their sweeping visions give way to compromise and partial victories Yet as Schlozman demonstrates it is well worth paying the price as movements reorient parties priorities Timely and compelling When Movements Anchor Parties demonstrates how alliances have transformed American political parties

Race and Education in North Carolina John E. Batchelor, 2015-12-16 The separation of white and black schools remained largely unquestioned and unchallenged in North Carolina for the first half of the twentieth century yet by the end of the 1970s the Tar Heel State operated the most thoroughly desegregated school system in the nation In *Race and Education in North Carolina* John E Batchelor a former North Carolina school superintendent offers a robust analysis of this sea change and the initiatives that comprised the gradual and often reluctant desegregation of the state's public schools In a state known for relative racial moderation North Carolina government officials generally steered clear of fiery rhetorical rejections of *Brown v Board of Education* in contrast to the position of leaders in most other parts of the South Instead they played for time staving off influential legislators who wanted to close public schools and provide vouchers to support segregated private schools instituting policies that would admit a few black students into white schools and continuing to sanction segregation throughout most of the public education system Litigation primarily initiated by the NAACP and the Civil Rights Act of 1964 created stronger mandates for progress and forced government officials to accelerate the pace of desegregation Batchelor sheds light on the way local school districts pursued this goal while community leaders school board members administrators and teachers struggled to balance new policy demands with deeply entrenched racial prejudice and widespread support for continued segregation Drawing from case law newspapers interviews with policy makers civil rights leaders and attorneys involved in school desegregation as well as

previously unused archival material *Race and Education in North Carolina* presents a richly textured history of the legal and political factors that informed obstructed and finally cleared the way for desegregation in the North Carolina public education system

Across Fortune's Tracks Walter E. Campbell, 1996 William Rand Kenan Jr 1872 1965 is best remembered throughout his native North Carolina as a major benefactor of his alma mater the University of North Carolina at Chapel Hill But he was also a gifted scientist and business executive In this first *Democracy for Hire* Dennis W. Johnson, 2017 This book is a history of political consulting in America examining how the consulting business developed highlighting the major figures in the consulting industry and assessing the impact of professional consulting on elections and American democracy A key focus is on presidential elections beginning in 1964 and the important role played by consultants and political operatives

Going Dirty David Mark, 2009-04-16 *Going Dirty* is a history of negative campaigning in American politics and an examination of how candidates and political consultants have employed this often controversial technique The book includes case studies on notable races throughout the television era in which new negative campaign strategies were introduced or existing tactics were refined and amplified upon Strategies have included labeling opponents from non traditional political backgrounds as dumb or lightweight an approach that got upended when a veteran actor and rookie candidate named Ronald Reagan won the California governorship in 1966 setting him on a path to the White House The negative tone of campaigns has also been ratcheted up dramatically since the terrorist attacks of September 11 2001 Campaign commercials now routinely run pictures of international villains and suggest sometimes overtly at other times more subtly that political opponents are less than resolute in prosecuting the war on terror The book also outlines a series of races in which negative campaigning has backfired because the charges were not credible or the candidate on the attack did not understand the political sentiments of the local electorate they were trying to persuade The effect of newer technologies on negative campaigning is also examined including blogs and Web video in addition to tried and true methods like direct mail
