House Rating Schemes Maria Kordjamshidi, 2010-11-25 House Rating Schemes provides information to students architects and researchers in the field of the built environment It reviews current House Rating Schemes HRS used in different countries and investigates how these schemes assess the thermal performance of a house It challenges the way that these schemes assess building energy efficiency and their inability to evaluate free running buildings which do not need an energy load for heating and cooling indoor environments Finally the book proposes a new index and method for HRS in which the efficiency of a house design can be evaluated with reference to its thermal performance in both free running and conditioned operation modes The book deals with various approaches and methods for rating buildings on the basis of different indexes with implications for both energy efficiency and thermal comfort It also guides readers through a computer simulation program for developing a rating system that evaluates and ranks building energy efficiency

Material Cultures in Canada Thomas Allen, Jennifer Blair, 2015-06-08 Material Cultures in Canada presents the vibrant and diverse field of material culture studies in Canadian literary artistic and political contexts today The first of its kind this collection features sixteen essays by leading scholars in Canada each of whom examines a different object of study including the beaver geraniums comics water a musical playlist and the human body The book's three sections focus in turn on objects that are persistently material on things whose materiality blends into the immaterial and on the materials of spaces

Contributors highlight some of the most exciting new developments in the field such as the emergence of new materialism affect theory globalization studies and environmental criticism Although the book has a Canadian centre the majority of its contributors consider objects that cross borders or otherwise resist national affiliation This collection will be valuable to readers within and outside of Canada who are interested in material culture studies and in addition will appeal to anyone interested in the central debates taking place in Canadian political and cultural life today such as climate change citizenship shifts in urban and small town life and the persistence of imperialism
