Notes, 1919 Municipal Reference Library Notes, 1919 **Municipal Reference Library Notes** New York Public Library. Municipal Reference Library, 1919 **Notes - Municipal Reference and Research Center** Municipal Reference and Research Center (New York, N.Y.), 1919 The Excuse Factory Walter K. Olson, 1997 The Excuse Factory will spur outrage and spark a national debate about the role of government in the workplace Olson's expose is certain to shake up the legal industry rattle government regulators and cause thousands of workers and managers to nod in vigorous agreement

The Metal Worker, Plumber, and Steam Fitter, 1904 *Whose Backyard, Whose Risk* Michael B. Gerrard, 1996 In *Whose Backyard Whose Risk* environmental lawyer professor and commentator Michael B. Gerrard tackles the thorny issue of how and where to dispose of hazardous and radioactive waste In *Whose Backyard Whose Risk* environmental lawyer professor and commentator Michael B. Gerrard tackles the thorny issue of how and where to dispose of hazardous and radioactive waste Gerrard who has represented dozens of municipalities and community groups that have fought landfills and incinerators as well as companies seeking permits clearly and succinctly analyzes a problem that has generated a tremendous amount of political conflict emotional anguish and transaction costs He proposes a new system of waste disposal that involves local control state responsibility and national allocation to deal comprehensively with multiple waste streams Gerrard draws on the literature of law economics political science and other disciplines to analyze the domestic and international origins of wastes and their disposal patterns Based on a study of the many failures and few successes of past siting efforts he identifies the mistaken assumptions and policy blunders that have helped doom siting efforts Gerrard first describes the different kinds of nonradioactive and radioactive wastes and how each is generated and disposed of He explains historical and current siting decisions and considers the effects of the current mechanisms for making those decisions including the hidden economics and psychology of the siting process A typology of permit rules reveals the divergence between what underlies most siting disputes and what environmental laws actually protect Gerrard then looks at proposals for dealing with the siting dilemma and examines the successes and failures of each He outlines a new alternative for facility siting that combines a political solution and a legal framework for implementation A hypothetical example of how a siting decision might be made in a particular case is presented in an epilogue **Metal Worker, Plumber and Steam Fitter**, 1899 Public Health Reports, 1960 For Jobs and Freedom Robert H. Zieger, 2014-04-23 Whether as slaves or freedmen the political and social status of African Americans has always been tied to their ability to participate in the nation's economy Freedom in the post Civil War years did not guarantee equality and African Americans from emancipation to the present have faced the seemingly insurmountable task of erasing pervasive public belief in the inferiority of their race *For Jobs and Freedom Race and Labor in America since 1865* describes the African American struggle to obtain equal rights in the workplace and organized labor's response to their demands Award winning historian Robert H. Zieger asserts that the

promise of jobs was similar to the forty acres and a mule restitution pledged to African Americans during the Reconstruction era. The inconsistencies between rhetoric and action encouraged workers both men and women to organize themselves into unions to fight against unfair hiring practices and workplace discrimination. Though the path proved difficult, unions gradually obtained rights for African American workers with prominent leaders at their fore. In 1925 A. Philip Randolph formed the first black union, the Brotherhood of Sleeping Car Porters, to fight against injustices committed by the Pullman Company, an employer of significant numbers of African Americans. The Congress of Industrial Organizations (CIO) emerged in 1935 and its population quickly swelled to include over 500,000 African American workers. The most dramatic success came in the 1960s with the establishment of affirmative action programs, passage of the Civil Rights Act of 1964, and Title VII enforcement measures prohibiting employer discrimination based on race. Though racism and unfair hiring practices still exist today, motivated individuals and leaders of the labor movement in the nineteenth and twentieth centuries laid the groundwork for better conditions and greater opportunities. Unions with some sixteen million members currently in their ranks continue to protect workers against discrimination in the expanding economy. *For Jobs and Freedom* is the first authoritative treatment in more than two decades of the race and labor movement, and Zieger's comprehensive and authoritative book will be standard reading on the subject for years to come.
