New Trends in Intelligent Software Methodologies, Tools and Techniques Hector Perez-Meana, 2021-09-15 The integration of AI with software is an essential enabler for science and the new economy creating new markets and opportunities for a more reliable flexible and robust society Current software methodologies tools and techniques often fall short of expectations however and much software remains insufficiently robust and reliable for a constantly changing and evolving market This book presents 54 papers delivered at the 20th edition of the International Conference on New Trends in Intelligent Software Methodology Tools and Techniques SoMeT_21 held in Cancun Mexico from 21 23 September 2021 The aim of the conference was to capture the essence of a new state of the art in software science and its supporting technology and to identify the challenges that such a technology will need to master and this book explores the new trends and theories illuminating the direction of development in this field as it heads towards a transformation in the role of software and science integration in tomorrow s global information society The 54 revised papers were selected for publication by means of a rigorous review process involving 3 or 4 reviewers for each paper followed by selection by the SoMeT_21 international reviewing committee The book is divided into 9 chapters classified by paper topic and relevance to the chapter theme Covering topics ranging from research practices techniques and methodologies to proposing and reporting on the solutions required by global business the book offers an opportunity for the software science community to consider where they are today and where they are headed in the future

New Trends in Astronomy Teaching L. Gouguenheim, D. McNally, J. R. Percy, 1998-10 How do students learn astronomy How can the World Wide Web be used to teach And how do planetariums help with educating the public These are just some of the timely questions addressed in this stimulating review of new trends in the teaching of astronomy Based on an international meeting hosted by the University of London and the Open University IAU Colloquium 162 this volume presents articles by experts from around the world The proceedings of the first IAU Colloquium 105 *The Teaching of Astronomy* edited by Percy and Pasachoff were first published in 1990 and soon became established as the definitive resource for astronomy teachers Astronomy education has advanced enormously in the intervening 7 years and this sequel will inspire and encourage teachers of astronomy at all levels and provide them with wealth of ideas and experience on which to build

New Trends in Intelligent Software Methodologies, Tools and Techniques Hamido Fujita, Guido Guizzi, 2023-10-15 Software is an essential enabler for science and the new economy but current software methodologies tools and techniques are often still not sufficiently robust or reliable for the constantly changing and evolving market and many promising approaches have proved to be no more than case oriented methods that are not fully automated This book presents the proceedings of SoMeT_23 the 22nd International Conference on New Trends in Intelligent Software Methodology Tools and Techniques held from 20 22 September 2023 in Naples Italy The conference brings together researchers and practitioners to share original research and practical development experience in software

science and related new technologies and is an opportunity for the software science community to take stock of where they are today and consider future directions The 25 papers included here were carefully selected from the many high quality submissions received after a rigorous review process with each paper typically being reviewed by 3 or 4 reviewers Topics covered range from research practices techniques and methodologies to the solutions required by global business SoMeT_23 focused in particular on intelligent software the application of artificial intelligence techniques in software development and tackling human interaction in the development process for better high level interface with an emphasis on human centric software methodologies end user development techniques and emotional reasoning for an optimum performance between design tool and user Exploring trends theories and challenges in the integration of software and science for tomorrow s global information society the book captures a new state of the art in software science and its supporting technology and will be of interest to all those working in the field
