Miseducating for the Global Economy Gerald Coles,2018-06-26 Reveals that behind the going concern for global economy education lies capitalism s indifference to human values to a fair distribution of resources to its radical restructuring of workplaces with an attendant intensification of work effort and to the

genuine well being of workers and their families Coles provides a real education about the twenty first century global economy and what corporations are doing to prevent our learning about it He describes the intellectually narrow and morally crippling effects of the corporate control of education how the imperative for profit maximizes the misunderstanding of communities nations and the environment even as it minimizes aesthetic appreciation cultural expression compassion itself But it is by understanding all this Coles argues that real change can begin Adapted from publisher description

The Postcolonial Contemporary Jini Kim Watson, Gary Wilder, 2018-07-03 This volume invokes the postcolonial contemporary in order to recognize and reflect upon the emphatically postcolonial character of the contemporary conjuncture as well as to inquire into whether postcolonial criticism can adequately grasp it Neither simply for nor against postcolonialism the volume seeks to cut across this false alternative and to think with postcolonial theory about political contemporaneity Many of the most influential frameworks of postcolonial theory were developed during the 1970s and 1990s during what we may now recognize as the twilight of the postwar period If forms of capitalist imperialism are entering into new configurations of neoliberal privatization wars without end xenophobic nationalism and unsustainable extraction what aspects of postcolonial inquiry must be reworked or revised in order to grasp our political present In twelve essays that draw from a number of disciplines history anthropology literature geography indigenous studies and regional locations the Black Atlantic South Africa South Asia East Asia Australia Argentina *The Postcolonial Contemporary* seeks to move beyond the habitual oppositions that have often characterized the field such as universal vs particular Marxism vs postcolonialism and politics vs culture These essays signal an attempt to reckon with new and persisting postcolonial predicaments and do so under four inter related analytics Postcolonial Temporality Deprovincializing the Global South Beyond Marxism versus Postcolonial Studies and Postcolonial Spatiality and New Political Imaginaries

The Transformation of Citizenship, Volume 1 Juergen Mackert, Bryan S. Turner, 2017-03-16 *The Transformation of Citizenship* addresses the basic question of how we can make sense of citizenship in the twenty first century These volumes make a strong plea for a reorientation of the sociology of citizenship and address serious threats of an ongoing erosion of citizenship rights Arguing from different scientific perspectives rather than offering new conceptions of citizenship as supposedly more adequate models of rights membership and belonging they deal with both the ways citizenship is transformed and the ways it operates in the face of fundamentally transformed conditions This volume *Political Economy* discusses manifold consequences of a decades long enforcement of neo liberalism for the rights of citizens As neo liberalism not only means a new form of economic system it has to be conceived of as an entirely new form of global regional and national governance that radically transforms economic political and social relations in society Its consequences for citizenship as a social institution are no less than dramatic Against the background of both manifest and ideological processes the book looks at if citizenship has lost the basis it has rested upon for decades or if the institution itself is in a process of being fundamentally transformed and restructured thereby changing its

meaning and the significance of citizens rights This book will appeal to academics working in the field of political theory political sociology and European studies **Parcels** Mike Anastario, 2019-05-03 In light of new proposals to control undocumented migrants in the United States *Parcels* prioritizes rural Salvadoran remembering in an effort to combat the collective amnesia that supports the logic of these historically myopic strategies Mike Anastario investigates the social memories of individuals from a town he refers to as El Norte o a rural municipality in El Salvador that was heavily impacted by the Salvadoran Civil War which in turn fueled a mass exodus to the United States By working with two viajeros travelers who exchanged encomiendas parcels containing food medicine documents photographs and letters between those in the U S and El Salvador Anastario tells the story behind parcels and illuminates their larger cultural and structural significance This narrative approach elucidates key arguments concerning the ways in which social memory permits and is shaped by structural violence particularly the U S actions and policies that have resulted in the emotional and physical distress of so many Salvadorans The book uses analyses of testimonies statistics memories of migration the war and of course the many parcels sent over the border to create an innovative and necessary account of post Civil War El Salvador
