Newsletter | Summer Principal's message

Wow! The school year ended with a flurry of activity (and unfortunately, rain and flooding). Now the flurry turns (at least momentarily) to preparing for next year. Staff will be in the building June 28, closing out this year and preparing for the next. In the midst of this harrowed frenzy we call year-end, we enjoyed a number of "together moments" ranging from our one "Touch of Class" talent show, to our revised grade six farewell, to each of us pulling together amidst the devastation and damage to hit our city. Each time, for a wide array of reasons, the school came together to celebrate our year, and each time, a bond of community permeated each event. Relationship seemed to be a common theme at each and is a critical part of our school's continued success.

I would like to extend formal congratulations to all of the students in grade six as they move onto grade seven. It is always a challenge saying farewell to a departing class, however this year's grade six class left an especially wonderful and memorable mark on our school through events such as We Day and their own version of Mini-We Day, as well as performances at our spring concert and On the Wall. On behalf of all students and staff, I wish them continued success in their educational journey en route to becoming the graduating class of 2019.

To all students and families, thank you for an incredibly successful year. As my first at Sunalta, bearing witness to the remarkable achievement, citizenship, and character within these hallowed walls, surpassed my already high expectations. Have a wonderful and safe summer and we look forward to seeing you on September 3.

Trevor Barkley, Principal (tbarkley@cbe.ab.ca)

REPORT CARDS

Student report cards were sent home on Thursday, June 27 for all students. Attendance records on the report cards are only until June 25. If you require a more accurate account please see the office.

BEST PRACTICES FROM CANADA'S HIGH PERFORMING SCHOOL SYSTEMS

Empowered Educators in Canada is one volume in a series that explores how high performing educational systems from around the world achieve strong results. The anchor book *Empowered Educators: How High Performing Systems Shape Teaching Quality Around the World* is written by Linda Darling-Hammond and colleagues with contributions from the authors of this volume. *Empowered Educators in Canada* details the core commonalities that exist across Canada with special emphasis on the localized nature of the systems, a hallmark of Canadian education. Canada boasts a highly educated population and the provinces/territories truly value education as evidenced by the significant proportion of public funds allocated to schooling. Operated by the provinces and territories, participation in kindergarten, primary and secondary education is close to 100% across the nation. In addition to offering traditional academics, secondary education includes opportunities for students to attend technical and vocational programs. To demonstrate exemplary education systems, the authors examine two top performing jurisdictions: Alberta and Ontario, which have developed strong supports for teacher development. Canadian teachers are highly qualified and salary scales in all jurisdictions are typically based on a teacher's level of education and years of experience. While Canada has enjoyed much educational success, the education of First Nations students has historically been one of the country's more controversial and contentious issues. Overall, Canada is a country that is proud of its education system and places a high value on and participation in publicly funded education.

Oil's Deep State Kevin Taft, 2017-10-06

Why have democratic governments failed to take serious steps to reduce carbon emissions despite dire warnings and compelling evidence of the profound and growing threat posed by global warming? Most of the writing on global warming is by scientists, academics, environmentalists and journalists. Kevin Taft, a former leader of the opposition in Alberta, brings a fresh perspective through the insight he gained as an elected politician who had an insider's eyewitness view of the role of the oil industry. His answer, in brief: The oil industry has captured key democratic institutions in both Alberta and Ottawa. Taft begins his book with a perceptive observer's account of a recent court case in Ottawa which laid bare the tactics and techniques of the industry, its insiders and lobbyists. He casts dramatic new light on exactly how corporate lobbyists, politicians, bureaucrats, universities and other organizations are working together to pursue the oil industry's agenda. He offers a brisk tour of the recent work of scholars who have developed the concepts of the deep state and institutional capture to understand how one rich industry can override the public interest. Taft views global warming and weakened democracy as two symptoms of the same problem: the loss of democratic institutions to corporate influence and control. He sees citizen engagement and direct action by the public as the only response that can unravel big oil's deep state.
