the traditional sense but it has an immense power to transform children's understanding of the world around them and their lives. Many jobs currently and of the future will demand the skills that learning in the arts will develop. This book brings Arts Education sharply into focus as a meaningful learning experience for children of pre-school and primary age 3-11 years. It reinforces the potential for the wide range of physical, mental and emotional development through learning opportunities that engagement in arts practice facilitates. Provides insight into how teachers can support children to consider contemporary challenges that face their generation. Includes expert voices from the world of education to demonstrate an expansive and perhaps surprising view of where and how the Arts can be found. Shows how we can bring the arts so easily into our curriculum and into our classrooms.

Art, Kids, and Christian Education Ardys Koskovich Sabin, Art doesn't just provide a fun escape for kids; it can be used as a significant part of the Christian education process. This book shows how to explore the Bible stories through artistic media such as pottery, weaving, painting and more.
