Why was finding this assignment easy?	From previous experience, I had learned through observation, reading, and informal feedback that... The planning process seemed to require that people in general stay quiet and be obedient participants, without the opportunity to question or provide their own perspective. This was a challenge for all of us. The assignment was not only a challenge but also a learning experience for all of us. This was a great learning experience for all of us.
How much progress did the assignment take?	The assignment was not a challenge for all of us. It was a learning experience for all of us. It was a challenge for all of us. It was a learning experience for all of us.
How did you feel about the assignment?	From the first time I saw the assignment, I felt that it was a challenge for all of us. It was a learning experience for all of us. It was a challenge for all of us. It was a learning experience for all of us.
What did I learn from the assignment?	I had learned that the assignment was not a challenge for all of us. It was a learning experience for all of us. It was a challenge for all of us. It was a learning experience for all of us.
