Students can play around with the structure and perception of the paper in some cases.

RESEARCH PAPER

A research paper is commonly required to reach at least 8 pages, depending on the assignment.

Research articles present other people's stand on a topic, generally a scientist's or recognized organization.

An analytical research paper requires a wide understanding and investigation of a certain topic.

Research papers focus on a deep analysis of a matter.

Students writing a research paper will always need a level of understanding of the topic and sources chosen.

Writers should abstain from personal opinions and stay in line with facts only.

There's a non-negotiable structure that must be followed and closed with a proper conclusion.

Types of research papers: cause and effect, analytical, subject-based, etc.

Have a bigger structure, including a title page, abstract, introduction, body, conclusion, acknowledgments, and references.

Research papers do require a specific methodology carried out throughout the paper.
