Judd E. Hollander

Polaroid Spectra System Manual:

The Camera Does the Rest Peter Buse, 2016-05-27 In a world where nearly everyone has a cellphone camera capable of zapping countless instant photos it can be a challenge to remember just how special and transformative Polaroid photography was in its day And yet there s still something magical for those of us who recall waiting for a Polaroid picture to develop Writing in the context of two Polaroid Corporation bankruptcies not to mention the obsolescence of its film Peter Buse argues that Polaroid was and is distinguished by its process by the fact that as the New York Times put it in 1947 the camera does the rest Polaroid was often dismissed as a toy but Buse takes it seriously showing how it encouraged photographic play as well as new forms of artistic practice Drawing on unprecedented access to the archives of the Polaroid Corporation Buse reveals Polaroid as photography at its most intimate where the photographer photograph and subject sit in close proximity in both time and space making Polaroid not only the perfect party camera but also the tool for frankly salacious pictures taking Along the way Buse tells the story of the Polaroid Corporation and its ultimately doomed hard copy wager against the rising tide of digital imaging technology He explores the continuities and the differences between Polaroid and digital reflecting on what Polaroid can tell us about how we snap photos today Richly illustrated The Camera Does the Rest will delight historians art critics analog fanatics photographers and all those who miss the thrill of waiting to see what develops Instructor's Manual for Strategic Management Samuel C. Certo, 1988 Popular Photography , 1990-12

Popular Photography , 1991-01 Exploring Color Photography Fifth Edition Robert Hirsch, 2013-02-11 The classic book on color photography is back in print and completely revamped for a digital photography audience Learn from step by step instruction illustrative charts and unbelievably inspirational imagery in this guide meant just for color photographers World renowned artists give you insight as to how they did that and the author provides challenging assignments to help you take photography to a new level With aesthetic and technical instruction like no other this book truly is the bible for color photographers Be sure to visit the companion website featuring portfolios and commentary by contemporary artists www.exploringcolorphotography.com *Photography and Digital Imaging* Marvin J.
