Pollution In A Promised Land An Environmental History Of Israel:

Pollution in a Promised Land Alon Tal, 2002-08-01 Virtually undeveloped one hundred years ago Israel the promised land of milk and honey is in ecological disarray In this gripping book Alon Tal provides for the first time ever a history of environmentalism in Israel interviewing hundreds of experts and activists who have made it their mission to keep the country's remarkable development sustainable amid a century of political and cultural turmoil The modern Zionist vision began as a quest to redeem a land that bore the cumulative effects of two thousand years of foreign domination and neglect Since then Israel has suffered from its success A tenfold increase in population and standard of living has polluted the air The deserts have bloomed but groundwater has become contaminated Urban sprawl threatens to pave over much of the country's breathtaking landscape Yet there is hope Tal's account considers the ecological and tactical lessons that emerge from dozens of cases of environmental mishaps from habitat loss to river reclamation Pollution in a Promised Land argues that the priorities and strategies of Israeli environmental advocates must address issues beyond traditional green agendas

Nationalism and the Politics of Fear in Israel Cathrine Thorleifsson, 2015-07-31 Kiryat Shmona located near the Israeli Lebanese border often makes the news whenever there is an outbreak of violence between the two countries In Israel's northernmost city the residents are mostly Mizrahim that is Jews descending from Arab and Muslim lands Cathrine Thorleifsson uses the dynamics at play along this border to develop wider conclusions about the nature of nationalism identity ethnicity and xenophobia in Israel and the ways in which these shift over time and are manipulated in different ways for various ends She explores the idea of being on the periphery of nationhood examining the identity forming and negotiating processes of these Mizrahim who do not neatly dovetail with the predominantly Ashkenazi concept of what it means to be Israeli Through in depth ethnographic observation and analysis Thorleifsson highlights the daily negotiation of Moroccan and Persian Jewish families who define themselves in opposition to Ashkenazi Jews from Russia and Central and Eastern Europe and the Druze Christian and Muslim Arab populations which surround them But this is not just an examination of differences and stereotypes which are continually perpetuated Instead Thorleifsson highlights the instances of inter marriage between Mizrahi and Ashkenazi Jews and what this means for the high politics of nationalist narratives as well as the everyday aspect of family dynamics But having done so she does also acknowledge that many of Israel's laws which deal with ethnic identity do result in discrimination and daily exclusion against a large number of its citizens something which reflects the ethnocentric character of the state By including all of these different aspects of the daily negotiation of identity in a northern town in Israel Thorleifsson offers a frank and balanced account of the nature of state nationalism and the people who are affected by it Covering an interesting aspect of Israeli society which is often overlooked this account of relations between both Ashkenazi

and Mizrahi Jews and those between Mizrahi Jews and Palestinians is an important contribution to the study of Israeli and Middle Eastern societies
