Poole's Index to Periodical Literature ,1888      **Crime Fiction in the Caribbean** Lucy Evans,2024-09-18 Crime Fiction in the Caribbean Reframing Crime and Justice is the first academic book to focus on crime fiction by anglophone Caribbean writers It explores how contemporary writers experiment with the crime genre in order to convey contextualize and comment on crime and justice in Caribbean countries Lucy Evans reads crime fiction as a versatile mode of writing that can be politically engaged and that in a Caribbean context can expose power structures embedded in the region s multi layered history of colonial conquest genocide of Indigenous populations plantation agriculture transatlantic slavery and indentured labour This book covers fiction set in Trinidad and Tobago Jamaica Guyana Barbados Grenada and Haiti discussing novels by Elizabeth Nunez Jacob Ross Marlon James Harischandra Khemraj Esther Figueroa Edwidge Danticat Cherie Jones and several others Evans considers how fiction by anglophone Caribbean writers not only reflects upon the social realities of crime and crime control in the Caribbean but also at times contests or complicates scholarly popular and legal perspectives She argues that through their engagement with the crime genre these writers raise pressing questions about what constitutes crime and justice in a Caribbean context and about accountability Looking beyond the traditional focus of crime fiction and criminology on individual acts of wrongdoing their fiction highlights systemic social harms rooted in the region s colonial past Reading crime fiction through the lens of criminological research Crime Fiction in the Caribbean brings the study of literary writing into scholarly debate on crime in the Caribbean At the same time it extends the global turn in crime fiction studies focusing on a region that has been sidelined even in studies which examine the genre s international dimensions      **Milton, Longinus, and the Sublime in the Seventeenth Century** Thomas Matthew Vozar,2024-03-07 In this wide ranging study in classical reception and the history of ideas Thomas Matthew Vozar shows how Milton s ideas of the sublime were informed by a deep understanding of Longinus and other ancient sources The book also demonstrates how Longinus s ideas and writings were far more prevalent in early modern England than previously thought      The Worldmakers Ayesha Ramachandran,2015-10-13 In this beautifully conceived book Ayesha Ramachandran reconstructs the imaginative struggles of early modern artists philosophers and writers to make sense of something that we take for granted the world imagined as a whole Once a new exciting and frightening concept the world was transformed in the sixteenth and seventeenth centuries But how could one envision something that no one had ever seen in its totality The Worldmakers moves beyond histories of globalization to explore how the world itself variously understood as an object of inquiry a comprehensive category and a system of order was self consciously shaped by human agents Gathering an international cast of characters from Dutch cartographers and French philosophers to Portuguese and English poets Ramachandran describes a history of firsts the first world atlas the first global epic the first modern attempt to develop a systematic natural philosophy all part of an effort by early modern thinkers to capture the world on the page      **Biological Exuberance** Bruce

*Possible Knowledge* Debapriya Sarkar,2023-04-04 The Renaissance scholars have long argued was a period beset by the loss of philosophical certainty In *Possible Knowledge* Debapriya Sarkar argues for the pivotal role of literature what early moderns termed poesis in the dynamic intellectual culture of this era of profound incertitude Revealing how problems of epistemology are inextricable from questions of literary form Sarkar offers a defense of poesis or literary making as a vital philosophical endeavor Working across a range of genres Sarkar theorizes possible knowledge as an intellectual paradigm crafted in and through literary form Sixteenth and seventeenth century writers such as Spenser Bacon Shakespeare Cavendish and Milton marshalled the capacious concept of the possible defined by Philip Sidney as what may be and should be to construct new theories of physical and metaphysical reality These early modern thinkers mobilized the imaginative habits of thought constitutive to major genres of literary writing including epic tragedy romance lyric and utopia in order to produce knowledge divorced from historical truth and empirical fact by envisioning states of being untethered from nature or reality Approaching imaginative modes such as hypothesis conjecture prediction and counterfactuals as instruments of possible knowledge Sarkar exposes how the speculative allure of the possible lurks within scientific experiment induction and theories of probability In showing how early modern literary writing sought to grapple with the challenge of forging knowledge in an uncertain perhaps even incomprehensible world *Possible Knowledge* also highlights its most audacious intellectual ambition its claim that while natural philosophy or what we today term science might explain the physical world literature could remake reality Enacting a history of ideas that centers literary studies *Possible Knowledge* suggests that what we have termed a history of science might ultimately be a history of the imagination *What to Watch When* Christian Blauvelt,Laura Buller,Andrew Frisicano,Stacey Grant,Mark Morris,Drew Toal,Eddie Robson,Maggie Serota,Matthew Turner,Laurie Ulster,2020-10-27 Answering the eternal question WHAT TO WATCH NEXT Looking for a box set to get your adrenaline racing or to escape to a different era In need of a good laugh to lift your spirits Hunting for a TV show that the whole family can watch together If you re feeling indecisive about your next binge watching session we ve done the hard work for you Featuring 1 000 carefully curated reviews written by a panel of TV connoisseurs *What To Watch When* offers up the best show suggestions for every mood and moment **Kinesic Humor** Guillemette Bolens,2021-04-13 Literature is one

of the richest sources of information concerning the ways in which human beings play with cognition Human cognition is grounded in the ability to feel perceive and move Kinesic Humor examines literary works written in different languages and various historical periods in which the cognitive processing of gestures and kinesic interactions trigger humorous effects By bringing together literary studies cognitive studies gesture studies and humor studies this book offers an original perspective on literary artworks such as Chr tien de Troyes Yvain Milton s Paradise Lost Cervantes Don Quixote Rousseau s Confessions Sterne s Tristram Shandy and Stendhal s Le Rouge et le Noir N     *Adam as Israel* Seth D Postell,2012-04-26 Postell

contends that the opening chapters of the Bible when interpreted as a strategic literary introduction to the Torah and to the Tanakh intentionally foreshadows Israel s failure to keep the Sinai Covenant and their consequent exile from the Promised Land in order to point the reader to a future work of God Postell highlights numerous intentional links between the story of Adam and the story of Israel and in the process explains numerous otherwise perplexing features of the Eden story Postell employs a wealth of theologies to support his argument including those of Nicholas of Lyra John Calvin Wellhausen Johannes Coccejus and Matthew Poole successfully breathing new life into the wealth of exegeses     **Proceedings of the Dorset**
