### Introduction

Vitamin B12 is also referred to as cobalamin and it identifies a water-soluble vitamin utilized within the normal neurological function together with the development of the red blood cells. B12 is also identified as a cofactor within two metabolic pathways as it is utilized within the conversion of homocysteine together with methionine and within the conversion of methylmalonic acid (MMA) to succinyl-CoA (Alemras et al. 2007). The main sources of B12 include animal products such as meat, poultry, fish and milk; fortified foods including breakfast cereal together with B12 supplements. The recommended allowance does not incorporate a tolerable upper intake limit, as there is limited research on the toxicity capacity and limited data supporting the stipulation of an upper limit. Vitamin B12 is vital as it comprises an important element in DNA synthesis and individual neurological functioning. This necessitates continuous intake of the vitamin to enhance the prevention of possible hematologic and neuropsychiatric disorders upon lack of continued intake of the vitamin.

Through the analysis of the American and European intake of the vitamin, the intake levels identified meet the stipulated recommended daily allowance. However, keenness has to be observed regarding the absorption levels to ensure that individuals meet the required levels. This is particularly vital for vegetarians, as they do not consume animal products, which create the bulk of Vitamin B12 sources. In addition, individuals under any forms of medication, gastrointestinal patients, individuals over 50 years of age and anyone experiencing poor bouts of health remain at risk of having low levels of Vitamin B12 within their systems. Lack of vitamin B12 is influenced by poor adherence of the dietary stipulations leads to the identification of vitamin B12 deficiency among individuals.

Marshall, 2023-07-03 Sponsored by Concerned by ongoing debates about higher education that talk past one another the authors of this book show how to move beyond these and other obstacles to improve the student learning experience and

further successful college outcomes Offering an alternative to the culture of compliance in assessment and accreditation they propose a different approach which they call the Learning System Paradigm Building on the shift in focus from teaching to learning the new paradigm encourages faculty and staff to systematically seek out information on how well students are learning and how well various areas of the institution are supporting the student experience and to use that information to create more coherent and explicit learning experiences for students The authors begin by surveying the crowded terrain of reform in higher education and proceed from there to explore the emergence of this alternative paradigm that brings all these efforts together in a coherent way The Learning System Paradigm presented in chapter two includes four key elements consensus alignment student centeredness and communication Chapter three focuses upon developing an encompassing notion of alignment that enables faculty staff and administrators to reshape institutional practice in ways that promote synergistic integrative learning Chapters four and five turn to practice exploring the application of the paradigm to the work of curriculum mapping and assignment design Chapter six focuses upon barriers to the work and presents ways to start and options for moving around barriers and the final chapter explores ongoing implications of the new paradigm offering strategies for communicating the impact of alignment on student learning The book draws upon two recent initiatives in the United States the Tuning process adapted from a European approach to breaking down siloes in the European Union educational space and the Degree Qualifications Profile DQP a document that identifies and describes core areas of learning that are common to institutions in the US Many of the examples are drawn from site visit reports self reported activities workshops and project experience collected by the National Institute for Learning Outcomes Assessment NILOA between 2010 and 2016 In that six year window NILOA witnessed the use of Tuning and or the DQP in hundreds of institutions across the nation
