

SCIENCE QUESTION LESSON STARTERS BUNDLE

Question: Can you systematically evaluate competing design solutions for their success potential?

Activity: Build different paper bridges and test their stability and load-bearing capacities using coins.

What if you could design a "Particle Pictionary" game challenging players to draw molecular-level models that predict how substances transform as thermal energy is introduced or taken away?

Imagine you're a "Hazard Hero," using your scientific superpowers to anticipate and mitigate natural disasters. How do you harness data and technology to save the day?

What if you were a detective tracking the journey of pollen from one flower to another? How do animal behaviors impact plant reproduction?
