relevant empirical examples From phenomenology to discourse analysis from questions of identity privacy and agency to issues of surveillance and tracking at the workplace this edited collection takes on a wide and yet focused approach to the timely topic of self tracking It constitutes a useful companion for scholars students and everyday users interested in the Quantified Self phenomenon **Robotics, AI, and Humanity** Joachim von Braun, Margaret S. Archer, Gregory M. Reichberg, Marcelo Sánchez Sorondo, 2021-02-12 This open access book examines recent advances in how artificial intelligence AI and robotics have elicited widespread debate over their benefits and drawbacks for humanity The emergent technologies have for instance implications within medicine and health care employment transport manufacturing agriculture and armed conflict While there has been considerable attention devoted to robotics AI applications in each of these domains a fuller picture of their connections and the possible consequences for our shared humanity seems needed This volume covers multidisciplinary research examines current research frontiers in AI robotics and likely impacts on societal well being human robot relationships as well as the opportunities and risks for sustainable development and peace The attendant ethical and religious dimensions of these technologies are addressed and implications for regulatory policies on the use and future development of AI robotics technologies are elaborated **Scientific Conceptualization and Ontological Difference** Dimitri Ginev, 2019-07-22 Ginev works out a conception of the constitution of scientific objects in terms of hermeneutic phenomenology Recently there has been a revival of interest in hermeneutic theories of scientific inquiry The present study is furthering this interest by shifting the focus from interpretive methods and procedures to the kinds of reflexivity operating in scientific conceptualization According to the book s central thesis a reflexive conceptualization enables one to take into consideration the role which the ontic ontological difference plays in the constitution of scientific objects The book argues for this thesis by analyzing the formation of objects of inquiry in a range of scientific domains stretching from highly formalized domains where the quest for objects identities is carried out in terms of objects emancipation from structures to linguistic and historiographic programs that avoid procedural objectification in their modes of conceptualization The book sets up a new strategy for the dialogue between the theories of scientific inquiry and hermeneutic phenomenology *The Evolution of Human Wisdom* Celia Deane-Drummond, Agustín Fuentes, 2017-10-18 This volume addresses key questions about the puzzle of human origins by focusing on a topic that is largely unexplored thus far namely the evolution of human wisdom How can we best understand the human capacity for wisdom where did it come from and how did it emerge It explores lines of convergence and divergence between Christian theology and evolutionary anthropology in its search to identify different aspects of wisdom Critical to this discussion are the philosophical difficulties that arise when two very different methodological approaches to the manner of humans becoming wise are brought together The relative importance and significance of human language is another area of intense debate in defining the meaning of wisdom and its expression How far and to what extent does a theologically informed wisdom discourse push evolutionary anthropology to formulate new

questions and vice versa This volume shows that there is no simple consonance between evolutionary anthropology and theology Yet each discipline has much to learn from the other the authors are in agreement that even in the midst of an awareness of dissonance and some tension there can still be mutual respect The goal of this book is to begin to develop a trans disciplinary approach to the evolution of human wisdom where each discipline is challenged to ask questions in a new way This volume tackles the relationship between theology and science in a fresh way by focusing on a specific theme wisdom that is equally generative for both theology and evolutionary anthropology The Oxford Handbook of the History of Phenomenology Dan Zahavi,2018-06-04 This Oxford Handbook offers a broad critical survey of the development of phenomenology one of the main streams of philosophy since the nineteenth century It comprises thirty seven specially written chapters by leading figures in the field which highlight historical influences connections and developments and offer a better comprehension and assessment of the continuity as well as diversity of the phenomenological tradition The handbook is divided into three distinct parts The first part addresses the way phenomenology has been influenced by earlier periods or figures in the history of philosophy The second part contains chapters targeting prominent phenomenologists How was their work affected by earlier figures how did their own views change over time and what kind of influence did they exert on subsequent thinkers The contributions in the third part trace various core topics such as subjectivity intersubjectivity embodiment spatiality imagination etc in the work of different phenomenologists in order to explore how the notions were transformed enriched and expanded up through the century This volume will be a source of insight for philosophers students of philosophy and for people working in other disciplines of the humanities social sciences and sciences who are interested in the phenomenological tradition It is an authoritative guide to how phenomenology started how it developed and where it is heading Handbook of Research on Administration, Policy, and Leadership in Higher Education Mukerji, Siran,Tripathi, Purnendu,2016-09-27 The creation of a sustainable and accessible higher education systems is a pivotal goal in modern society Adopting strategic frameworks and innovative techniques allows institutions to achieve this objective The Handbook of Research on Administration Policy and Leadership in Higher Education is an authoritative reference source for the latest scholarly research on contemporary management issues in educational institutions and presents best practices to improve policies and retain effective governance Addressing the current state of higher education at an international level this book is ideally designed for academicians educational administrators researchers and professionals **Indigenous Studies: Breakthroughs in Research and Practice** Management Association, Information Resources,2019-10-11 Global interest in indigenous studies has been rapidly growing as researchers realize the importance of understanding the impact indigenous communities can have on the economy development education and more As the use acceptance and popularity of indigenous knowledge increases it is crucial to explore how this community based knowledge provides deeper insights understanding and influence on such things as decision making and problem solving Indigenous Studies Breakthroughs in Research and

Languages and Linguistics of Indigenous North America Carmen Dagostino, Marianne Mithun, Keren Rice, 2023-09-05

This handbook provides broad coverage of the languages indigenous to North America with special focus on typologically interesting features and areal characteristics surveys of current work and topics of particular importance to communities The volume is divided into two major parts subfields of linguistics and family sketches The subfields include those that are customarily addressed in discussions of North American languages sounds and sound structure words sentences as well as many that have received somewhat less attention until recently tone prosody sociolinguistic variation directives information structure discourse meaning language over space and time conversation structure evidentiality pragmatics verbal art first and second language acquisition archives evolving notions of fieldwork Family sketches cover major language families and isolates and highlight topics of special value to communities engaged in work on language maintenance documentation and revitalization *Phenomenology in an African Context* Abraham Olivier, M. John Lamola, Justin Sands, 2023-10-01

African phenomenology is an emerging subfield within the broader domain of African and Africana philosophy The phenomenological method with its various approaches to studying the seminal structures and meaning of human experience has been a cornerstone in the thought of African philosophers such as Paulin Hountondji Tsenay Serequeberhan Achille Mbembe D A Masolo and Mabogo More as well as proponents of Africana philosophy such as W E B Du Bois Frantz Fanon Lucius Outlaw and Lewis Gordon Technically however the term African phenomenology is not used as widely or introduced as systematically as Africana phenomenology This anthology aims to fill this gap by exploring contributions and challenges to phenomenology in its African context and demonstrating the differences this context makes to the practice of phenomenology Written by some of the most eminent scholars in the field including Hountondji Serequeberhan Mbembe More Gordon and M John Lamola the sixteen original essays here address the relation of African phenomenology to African Africana philosophy postcolonial decolonial discourse and deliberations within the international phenomenological community New

Laboratories Charlotte Klonk, 2016-04-11 New laboratory buildings are currently being planned all around the world Are they different from or even better than their predecessors To answer this question the authors of this book have journeyed into the past and present of laboratory architecture They discuss the images of the research scientist and the laboratory that have been purveyed since the natural sciences were institutionalised in the nineteenth century They also examine contemporary architectural solutions in the light of influential laboratory architectures of the latter half of the twentieth century thereby discovering a great variety of approaches historical and contemporary for both the functional interrelation of spaces and the tension between symbolic fa ades and internal structures can take very different forms *Ted Mack and America's First*

Black-Owned Brewery Clint Lanier, 2023-04-06 Born a sharecropper in rural Alabama in 1930 Theodore A Ted Mack Sr fought in the Korean War and then played football at Ohio State while earning a college degree Brewing and selling beer he believed would be just another peak to attain After all it couldn't be more challenging than his experience in organizing buses to the March on Washington or picketing segregated schools in Milwaukee This is the story of Mack's purchase of Peoples Brewing Company in Oshkosh Wisconsin Though he had carefully planned for the historic acquisition he underestimated the subtle bigotry of Middle America the corruption of the beer industry and the failures of the federal government that plagued his ownership Mack's ownership of Peoples Brewing is an inspirational story of Black entrepreneurship innovation and pride at a time when America was at an important racial justice crossroads The Early Foucault Stuart Elden, 2021-05-20 It was not until 1961 that Foucault published his first major book *History of Madness* He had already been working as an academic for a decade teaching in Lille and Paris writing organizing cultural programmes and lecturing in Uppsala Warsaw and Hamburg Although he published little in this period Foucault wrote much more some of which has been preserved and only recently become available to researchers Drawing on archives in France Germany Switzerland Sweden and the USA this is the most detailed study yet of Foucault's early career It recounts his debt to teachers including Louis Althusser Jean Hyppolite Maurice Merleau Ponty and Jean Wahl his diploma thesis on Hegel and his early teaching career It explores his initial encounters with Georges Canguilhem Jacques Lacan and Georges Duménil and analyses his sustained reading of Friedrich Nietzsche Edmund Husserl and Martin Heidegger Also included are detailed discussions of his translations of Ludwig Binswanger Victor von Weizsäcker and Immanuel Kant his clinical work with Georges and Jacqueline Verdeaux and his cultural work outside of France Investigating how Foucault came to write *History of Madness* Stuart Elden shows this great thinker's deep engagement with phenomenology anthropology and psychology An outstanding meticulous work of intellectual history *The Early Foucault* sheds new light on the formation of a major twentieth century figure The Enterprising Barrister Atalanta Goulandris, 2020-06-11 What is it like working as a barrister in the 21st century The independent Bar has transformed in the last 30 years into a commercialised enterprising profession Based on interviews with and observation of barristers and chambers staff this book identifies key changes that have taken place at the Bar and how these are reshaping and reformulating barristers professionalism and working culture This is the first empirical overview of the depth scope and effects of multiple reforms that have been imposed on the profession It explores how this once unified profession has fragmented as the lived experiences of barristers in different practice areas have diverged Highly specialised sets of chambers now operate like businesses whilst others who are dependent on legal aid funding struggle to survive This book offers a unique examination of different sites of change how the chambers model has evolved how entrepreneurial barristers market themselves how aspirant law students prepare to enter the profession and how regulatory and procedural reforms have imposed managerial constraints on practitioners The conclusion considers what
