The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of

such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential African American Culture Omari L. nonfiction as well as his work across lesser examined domains poetry music theatre sermon photo text children s literature public media comedy and artistic collaboration In doing so The Cambridge Companion to James Baldwin captures the power and influence of his work during the civil rights era as well as his relevance in the post race transnational twenty first century when his prescient questioning of the boundaries of race sex love leadership and country assume new urgency

**Social Constructionist Identity Politics and Literary Studies** S. Gupta,2007-01-10 This study presents a critique of social constructionist identity politics which is distinguished from specific identity based political positions from within and with social constructionist commitments Gupta examines the institutionalization of social constructionist identity politics in literary studies considering the notions of canonicity *African-American Writers* Philip Bader,2014-05-14 African American authors have consistently explored the political dimensions of literature and its ability to affect social change African American literature has also provided an essential framework for shaping cultural identity and solidarity From the early slave narratives to the folklore and dialect verse of the Harlem Renaissance to the modern novels of today **Politics and Affect in Black Women's Fiction** Kathy Glass,2017-12-15 Exploring literary possibilities Politics and Affect reads black women s text in particular Frances Harper s *The Two Offers* 1859 Julia Collins s *The Curse of Caste* 1865 Nella Larsen s *Quicksand* 1928 and Danzy Senna s *Caucasia* 1998 as richly creative documents saturated with sociopolitical value Interested in how African American women writers from the nineteenth century to the present have mined the politics of affect and emotion to document love shame and suffering in environments shaped by race Kathy Glass gives sustained attention to the impact of racist affect on the black body and examines how black women writers deploy emotional states to engender sociopolitical change **African Americans and the Bible** Vincent L. Wimbush,2012-09-01 Perhaps no other group of people has been as much formed by biblical texts and tropes as African Americans From literature and the arts to popular culture and everyday life the Bible courses through black society and culture like blood through veins Despite the enormous recent interest in African American religion relatively little attention has been paid to the diversity of ways in which African Americans have utilized the Bible African Americans and the Bible is the fruit of a four year collaborative research project directed by Vincent L Wimbush and funded by the Lilly Endowment It brings together scholars and experts sixty eight in all from a wide range of academic and artistic fields and disciplines including ethnography cultural history and biblical studies as well as art music film dance drama and literature The focus is on the interaction between the people known as African Americans and that complex of visions rhetorics and ideologies known as the Bible As such the book is less about the meanings of the Bible than about the Bible and meanings less about the worlds of the Bible than about how worlds and the Bible interact in short about how a text constructs a people and a people constructs a text It is about a particular sociocultural formation but also about the dynamics that obtain in the interrelation between any group of people and sacred texts in general Thus African Americans and the Bible provides an exemplum of sociocultural formation and a critical lens

through which the process of sociocultural formation can be viewed      **Dictionary of Midwestern Literature, Volume Two** Philip A.
