**100 Questions & Answers About Your Child's Depression or Bipolar Disorder** Linda Chokroverty, 2009-06-05

**100 Questions From My Child** Mallika Chopra; Foreword By Deepak Chopra, 2007 In this touching book Mallika Chopra explores 100 questions children ask sometimes

whimsical often mystical shares insights on how you can craft your answers in a way that will foster a child's imagination creativity and sense of self Chopra writes As a mom I realized early on that my children were looking to me for answers Even before they could speak they were asking questions questions about how to interact with the world And it was my reaction to these questions that began to shape their worldview their sense of security and trust Chopra teaches us that each question a child asks presents a chance to change the future With warmth and wisdom she shares her own quest to answer her children's questions with lessons that last a lifetime or petty rivalries and the Rajpoots inherent chivalry loyalty devotion and zeal have been perceptively discussed 201 Questions to Ask Your Kids Pepper Schwartz, 2000-02-08 201 Questions to Ask Your Kids Do you have trouble talking to your kids Does a successful conversation with your child consist of one word responses or abrupt physical acknowledgments Does your son or daughter get upset at the most innocent questions Join the club Unfortunately communicating well with kids is something every parent desires but few achieve We love our children but talking to them in a meaningful manner isn't always easy The questions in this book are designed to help No matter what age or sex your children no matter how many children you have no matter how good or bad your current parent child relationship this simple game will get your family talking more And when you're talking really talking about emotions and fears and attitudes you'll be learning about each other as individuals and growing closer together as a group An Introduction For Kids Wouldn't it be fun to find out more about what your father or mother was like when he or she was a kid Or get to tell your parents which of their friends you think looks dorkiest Wouldn't conversation be more interesting if you and your family traded unexpected questions and answers at dinner rather than just talked about what homework did or didn't get done There are a lot of great things to talk about that no one ever brings up because we usually think conversation is serious rather than a way of being playful Of course conversation should be about serious things some of the time some of the questions in this book are about very serious topics But other times questions should be asked just to create new ways to think about things look back on our lives or imagine what life would be like if we could design in any way we wanted In fact I wrote this book because I think talking can be terrific fun and even talking to your parents and brothers or sisters can be a kind of great game Everyone can get to know each other and laugh a lot and be amazed from time to time No one wins or loses but there is an element of surprise in finding out personal information about parents and sharing some of your ideas daydreams and opinions with them My idea is to think of some of the world's most interesting questions that parents and kids could talk about and give everyone the chance to pick the ones they'd like to hear about Each person picks a question to ask and then answers a question when his or her turn comes around All you have to do is choose from the list under 201 Questions to Ask Your Parents and ask any question you want Your parents can take as long or as short a time they want to answer Any you can all discuss the topic if you like But then they go into their section of the book and ask you questions Some of them might not be so interesting but others like asking you who is the meanest kid you know might be cool to think

about and share with them They ll learn a lot about what you think are ways kids act nasty You can wiggle out of any two questions that don t interest you or are embarrassing but no more than that It s good if a question makes you squirm a little that means you either haven t thought about it before or you have but you haven t wanted to deal with it But why not try out and answer Pick a set length of time to play for and my guess is you ll want to extend it These questions get addictive You can play them at the dinner table or after dinner or on a car trip or anytime you feel like hearing what your parents say about something So this is a book about how to have interesting and often funny conversations with your family It s a way to avoid dead boring silences and fill the time instead with questions and answers that everyone will enjoy thinking about I know that in my family it is too easy for us to get stuck talking about practical things like who has to be taken where the next day That isn t particularly fun It doesn t let me in on what my kids are thinking and it doesn t help my two teenagers learn things that might help them understand me a little better An ingenious book that speaks to both parents and their kids 201 QUESTIONS TO ASK YOUR KIDS 201 QUESTIONS TO ASK YOUR PARENTS is two books in one Open it from one side and it provides parents with 201 questions for their children intended to spark discussion help reveal who their children really are and help children think about themselves and the world in new and useful ways Turn it over and there are 201 questions children can ask back to their parents Devised as an interactive game this is a book that can get any family talking really talking about facts and fears and attitudes An ingenious book that speaks to both parents and their kids 201 QUESTIONS TO ASK YOUR KIDS 201 QUESTIONS TO ASK YOUR PARENTS is two books in one Open it from one side and it provides parents with 201 questions for their children intended to spark discussion help reveal who their children really are and help children think about themselves and the world in new and useful ways Turn it over and there are 201 questions children can ask back to their parents Devised as an interactive game this is a book that can get any family talking really talking about facts and fears and attitudes
