Arts & Numbers Elaine Grogan Luttrull, 2013 A straightforward guide to financial planning budgeting and business basics for creative professionals artists and nonprofit managers **Detroit** Lewis D. Solomon, 2018-02-06 As America's most dysfunctional big city Detroit faces urban decay population losses fractured neighborhoods with impoverished households an uneducated unskilled workforce too few jobs a shrinking tax base budgetary shortfalls and inadequate public schools Looking to the city's future Lewis D. Solomon focuses on pathways to revitalizing Detroit while offering a cautiously optimistic viewpoint Solomon urges an economic development strategy one anchored in Detroit balancing its municipal and public school district's budgets improving the academic performance of its public schools rebuilding its tax base and looking to the private sector to create jobs He advocates an overlapping tripartite political economy one that builds on the foundation of an appropriately sized public sector and a for-profit private sector with the latter fueling economic growth Although he acknowledges that Detroit faces a long road to implementation Solomon sketches a vision of a revitalized economic sector based on two key assets vacant land and an unskilled labor force The book is divided into four distinct parts The first provides background and context with a brief overview of the city's numerous challenges The second examines Detroit's immediate efforts to overcome its fiscal crisis It proposes ways Detroit can be put on the path to financial stability and sustainability The third considers how Detroit can implement a new approach to job creation one focused on the for-profit private sector not the public sector In the fourth and final part Solomon argues that residents should pursue a strategy based on the actions of individuals and community groups rather than looking to large-scale projects **Standard and Poor's 500**
