Service Receivable and Inventory—Add-On Module*

Better manage the complexity of your service business with the Service Receivable and Inventory Module for Sage Master Builder.

The Service Receivable and Inventory Module provides complete service management and inventory functionality that integrates with Sage Master Builder accounting and estimating, fixed price work order systems that can also use estimating multiple service management, accounting, estimating, and inventory systems. This integration between modules gives you real-time, up-to-the-minute inventory management.

Service Receivables

The Service Receivables portion of this module makes it easy to handle service contracts, service orders, dispatch, on-call work orders, quotes, and cost-of-sale or billing of service work materials.

Save time by efficiently managing work orders without entering duplicate information into invoices and estimating. Easily turn your estimate into a service work order with the Estimating Basic module. Quickly review information about equipment installed at multiple client sites. Generate service agreement and warranty work. Manage your service technicians: assign work orders based on client location, priority, and technician load and expertise.

Because Service Receivables fully integrates with Inventory, you can keep inventory up to date the next time a repair or service work is completed.

*Add-on modules are sold separately.

Work Order	Client	Service	Material	Quantity	Unit Price	Total

BENEFITS

- Easy-on top of estimates when service work is performed with full integration between Service Receivables and Inventory
- On-line inventory as part of an assembly for added flexibility
- Greater flexibility options viewed and printed as a price book for your technicians
- Easy-keep your entire system updated by using the same point-of-sale database for estimating and for service
- Directly import items from your actual work orders with full integration to PMS
- Easy back-up and recovery work orders, complete security so that your technician staff can track back if right

* Complete service management capabilities require the Service Receivables, Inventory, and Estimating modules, separately, and Sage Master Builder.
