Culture Isabelle Hesse,2024-03-05 Isabelle Hesse identifies an important relational turn in British and German literature TV drama and film published and produced since the First Palestinian Intifada 1987 1993 This turn manifests itself on two levels one in representing Israeli and Palestinian histories and narratives as connected rather than separate and two by emphasising the links between the current situation in Israel and the Occupied Palestinian Territories and the roles that the United Kingdom and Germany have played historically and continue to play in the region This relational turn constitutes a significant shift in representations of Israel and Palestine in British and German culture as these depictions move beyond an

engagement with the Holocaust and Jewish suffering at the expense of Palestinian suffering and indicate a willingness to represent and acknowledge British and German involvement in Israeli and Palestinian politics This book offers new ways of thinking about how Israel and Palestine are imagined and reimagined as topics of cultural and political interest in two countries that have had complicated histories with both Israel and Palestine histories which are marked by each country's memories of the Holocaust and colonialism

Coins, Riches, and Lands Fernando López Sánchez, Marisa Bueno, David Martínez Chico, 2025-01-31 A study of how coins riches and lands were gained and distributed among the soldiers warriors and mercenaries in the Antiquity and Early Medieval times Land was the ideal store of wealth in the ancient Mediterranean world It brought social respectability and its possession allowed participation in the politics of the cities governed by landowning elites Crucial defense of the interests of a given polity through armed services often involved the distribution of lands to laborers still not integrated in these societies Mediterranean urban dynamics also involved paid labor and were always in need of short contract manpower including skilled soldiers and warriors For short time military services lands were not always available so soldiers and warriors were paid with coins and riches Because of their superior development urban economies in the Mediterranean were able to attract migrant paid labor When returning home the migrant warriors carried coins and riches that would enable them to maximize the return that a homecoming entailed Although difficult to prove whether these men were paid in advance or when discharged it is an important issue as it shows the strength of one contractor over another and helps to better understand the construction of statehood in ancient and early medieval times This collection of papers sheds light on how coins riches and lands were gained and distributed among soldiers warriors and mercenaries Contributions cover a wide chronological span from Late Pharaonic to early medieval times linking a well defined core area the Mediterranean basin with its peripheries Central Europe and Scandinavia to the
