Flow Measurement Handbook is a reference for engineers on flow measurement techniques and instruments It strikes a balance between laboratory ideas and the realities of field experience and provides practical advice on design operation and performance of flowmeters It begins with a review of essentials accuracy flow selection and calibration methods Each chapter is then devoted to a flowmeter class and includes information on design application installation calibration and operation Among the flowmeters discussed are differential pressure devices such as orifice and Venturi volumetric flowmeters such as positive displacement turbine vortex electromagnetic magnetic resonance ultrasonic acoustic multiphase flowmeters and mass meters such as thermal and Coriolis There are also chapters on probes verification and remote data access **Industrial Flow Measurement** Schlumberger Limited. Measurement Division,1995 **Fluid Flow Measurement** E. L. Upp,1993 This unique book brings the author s many years of field experience to bear in a thorough review of practical fluid flow measurement methods and applications The book avoids theory and concentrates instead on helping the reader review all the relevant data for the meter in use condition of the fluid details of the entire metering system installation and operation and the timing and quality of maintenance Those with limited experience in flow measurement will find the review of concepts extremely useful The experienced reader will find invaluable guidelines and often overlooked factors that apply in the practice of flow measurement but which are not found in the many theoretical reviews and industrial standards Fluid Flow Measurement begins with a review of basic laws and principles This is followed by an overview of the physical characteristics and behavior of gases and liquids Flow itself is then examined and various real world limitations to metering are discussed The second half of the book examines applications of specific meters readout and related devices and proving systems
