Pandey,2015-01-01 I didn t ask for this I didn t want this It just happened and I had no way to stop it Before I knew it I was fighting the unknown without any clue what was going on I was disconnected from my past with only one link left my sister And I had only one clue for the future find an object called the FIGHT and save the world But once I started discovering things about my world along with my hunt mates I realized that the enemy hasn t directed attacks at the world He wants to kill me The Bridge Builder's Story: A Novel Howard Fast,2016-09-16 Comparativists evaluate democratization by looking at regimes in the transition and consolidation phases of democracy without considering the essence of democracy This book argues the need to consider democracy as a combination of rights and virtues and that problems of democraticization are those of balance **A Primer of Handling the Negative Therapeutic Reaction** Jeffrey Seinfeld,2002 In a negative therapeutic reaction the progress of treatment triggers a particular destructive dynamic in the patient Initially therapists considered it to be a result of the patient s pathology but contemporary clinicians recognize that the therapist may significantly contribute to this process Object relations clinicians see the individual as a social being that develops in relation to others whom the individual internalizes as good and bad objects Jeffrey Seinfeld explores how an internal sabotaging self is identified with a rejecting object This self is a reservoir of memories of how original caregivers rejected the child s needs

and the patient now expects the world to reject and disappoint her. If patients experience the therapist as a kind or caring person, they may feel that they are being lured into dependency and subsequent disappointment. Paradoxically, if patients feel attached to the therapist, this same attachment is experienced as a threatening dependency that must be destroyed. A relationship that could eventually strengthen the personality is rejected and instead a negative reaction to the therapist and the therapeutic process is established. Jeffrey Seinfeld shows that in order for patients to heal, they must separate from the internal bad objects. This is often done with aggression against the therapist, who must be able to withstand the intense hostility, rage, and abuse of the patient. Only by surviving this aggression in the negative therapeutic reaction can the therapist allow the patient to integrate good and bad part objects in the transference. The therapist can eventually serve as a bridge in the integration of the divided good and bad selves and objects. Through case histories, Seinfeld illustrates his way of entering into the patient's internal world. By helping patients understand the transference of their internal objects, they begin to understand their own experience of self and others, which leads to character change.

The Tunnel of Destiny Kim Hyung-cha, 2019-01-03. Astonishing Experiences of a Family from 1870s to the 1960s: the Most Tragic Moments in Modern Korean History. Twin brothers believe they were born into an inseparable destiny, only to be betrayed by fate. Kim Hyung-cha is conscripted to serve as a student soldier during the Japanese occupation under conditions of severe cruelty, while his older twin Kim Hyung-tae, who remained in the North after liberation, goes missing in the turbulence of the Korean War. Kim Hyung-cha joins the allied forces and advances to the Yalu River with the war, where he miraculously finds his brother's family and manages to evacuate them to the South. Beyond stripping Korean contemporary history bare, this book forces an introspective look into the common yet esoteric concept of human destiny. Through a most peculiar interlacing of events and encounters that confront the family, leading towards an uncanny untangling of ties, readers will walk the tunnel of destiny, where mere coincidences are proven to be indisputable fate.

Cemetery Dance Douglas Preston, Lincoln Child, 2009-05-12. Pendergast, the world's most mysterious FBI Special Agent, investigates a murderous cult in New York City that no one has ever survived. William Smithback, a New York Times reporter, and his wife Nora Kelly, a Museum of Natural History archaeologist, are brutally attacked in their apartment on Manhattan's Upper West Side. Eyewitnesses claim, and the security camera confirms, that the assailant was their strange, sinister neighbor, a man who, by all reports, was already dead and buried weeks earlier. While Captain Laura Hayward leads the official investigation, Pendergast and Lieutenant Vincent D'Agosta undertake their own private and decidedly unorthodox quest for the truth. Their serpentine journey takes them to an enclave of Manhattan they never imagined could exist: a secretive, reclusive cult of Obeah and Vodou, which no outsiders have ever survived.
