Merleau-Ponty: An Ontology of the Imaginary Annabelle Dufourcq,2024-11-19 This study brings to light the original concept of the imaginary that emerges from Merleau Ponty s thought It elucidates the main influences that contributed to shaping Merleau Ponty s theory of the imaginary and aims to show that this novel concept constitutes one of the most crucial yet challenging keys to his philosophy and ultimately his ontology This book develops the ontology of the imagery sketched by Merleau Ponty and examines its practical implications As its originally ambiguous and inseparable underside the imaginary is just as central to Merleau Ponty s philosophy as perception The author argues to enlarge the notion of reality by recognizing the imaginary dimension and texture of the real and that Merleau Ponty s ontology of the flesh cannot be separated from an ontology of the imaginary This monograph examines Merleau Ponty s conception of the imaginary against both his aesthetics and his political philosophy and appeals to students and researchers working in phenomenology and continental philosophy

The Structure and Limits of Criminal Law Paul H. Robinson, 2017-10-23 This volume brings together a collection of essays many of them scholarly classics which form part of the debates on three questions central to criminal law theory The first of these questions is what conduct should be necessary for criminal liability and what sufficient The answer to this question has wider implications for the debate about morality enforcement given the concern that the harm principle may have collapsed under its own weight Secondly essays address the question of what culpability should be necessary for criminal liability and what sufficient Here the battles continue over whether the formulation of doctrines such as the insanity defense criminal negligence strict liability and others should ignore or minimize the extent of an offender's blameworthiness in the name of effective crime control Or are methods of accommodating the tension now in sight Finally essays consider the question of how criminal law rules should be best organized into a coherent and clarifying doctrinal structure The structure grown by the common law process competes not only with that of modern comprehensive codifications such as the American Law Institute's Model Penal Code but also with alternative structures imagined but not yet tried

capitalist possession Conrad queer friendship and paganized Christianity Forster regressive politics haunted by historical traumas Butts or the devious passages of perverse desire Bowen these writers locate something like hope in their ghosts The ethical and political impasses they chart through their spectral rhetoric are not final but temporary and the drive to overcome them constitutes a tensile optimism
