

Newton's 1<sup>st</sup> Law - the law of inertia

An object with no net force acting on it remains at rest or in uniform.

- Objects at rest tend to stay at rest.
- Objects in motion tend to move in a straight line at constant speed.

Inertia - A property of matter which resists changes in motion.

The best measure of an object's inertia is its mass.

Force - A push or pull.

Net forces cause the motion of an object to change.

Examples of Newton's 1<sup>st</sup> Law in Action:

When you're in a car brake  
when you're turning in a car.

In the egg demonstration:

Why does the tray fly across the table? Force was applied toward the tray

Why do the cardboard cylinders go with it? The friction force

Why do the eggs drop straight down into the water? is acting like a glue.  
The eggs drop straight down because of gravity.

Physics Challenge: Why doesn't a car in motion on a flat road stay in motion?

Friction forces, and air resistance.

Examples of Accelerated Motion:

Speeding up : slowing down : Starting :  
Changing direction : Stopping : moving in a circle

Inertia resists acceleration.

A net force causes acceleration.

Newton's 2<sup>nd</sup> Law - the law of acceleration

When a net force is applied to an object the object will accelerate in the direction of that force.

*Making Media Work* Derek Johnson, Derek Kompare, Avi Santo, 2014-08 The management and labor culture of the entertainment industry In popular culture management in the media industry is frequently understood as the work of network executives studio developers and market researchers the suits who oppose the more productive forces of creative talent and subject that labor to the inefficiencies and risk aversion of bureaucratic hierarchies However such portrayals belie the reality of how media management operates as a culture of shifting discourses dispositions and tactics that create meaning generate value and shape media work throughout each moment of production and consumption Making Media Work aims to provide a deeper and more nuanced understanding of management within the entertainment industries Drawing from work in critical sociology and cultural studies the collection theorizes management as a pervasive yet flexible set of principles drawn upon by a wide range of practitioners artists talent scouts performers directors show runners and more in their ongoing efforts to articulate relationships and bridge potentially discordant forces within the media industries The contributors interrogate

managerial labor and identity shine a light on how management understands its roles within cultural and creative contexts and reconfigure the complex relationship between labor and managerial authority as productive rather than solely prohibitive Engaging with primary evidence gathered through interviews archives and trade materials the essays offer tremendous insight into how management is understood and performed within media industry contexts The volume as a whole traces the changing roles of management both historically and in the contemporary moment within US and international contexts and across a range of media forms from film and television to video games and social media
