 name of the Belgian writer J H Rosny A n must be added He was the first writer to conceive and attempt to narrate the
 workings of aliens and alternate life forms His fascination with evolutionary scenarios and long historical vistas from first
 man to last man are important precursors to the myriad cosmic epics of modern science fiction Until now his work has been
 virtually unknown and unavailable in the English speaking world but it is crucial for our understanding of the genre Three
 wonderfully imaginative novellas are included in this volume The Xipehuz is a prehistoric tale in which the human species
 battles strange geometric alien life forms Another World is the story of a mysterious being who does not live in the same
 acoustic and temporal world as humans The Death of the Earth is a scientifically uncompromising Last Man story The book
 also includes an insightful critical introduction that places Rosny's work within the context of evolutionary biology Rosny was
 a species pluralist and believed that human beings are no more entitled than any other creature to reign supreme He would
