The Knowledge Corrupters Colin Crouch, 2016-04-25 In principle the advanced market driven world in which we now live is fuelled by knowledge information and transparency but in practice the processes that produce this world systematically corrupt and denigrate knowledge this is the powerful and provocative argument advanced by Colin Crouch in his latest exploration of societies on the road to post democracy Crouch shows that executives in profit maximizing corporations have incentives to ignore or distort knowledge especially firms in the information business of the mass media themselves as financial knowledge increasingly trumps the other kinds of knowledge that business needs Firms also seek to take control of public knowledge and use it for their own ends often at the cost of other stakeholders in society Meanwhile the transfer of similar practices to professional public services undermines professional skills and ethics especially when these services are out sourced to the
