New Models for Technical and Vocational Education and Training Makgato, Moses, Afeti, George, 2020-12-18

Technical and vocational education and training at technical schools are major contributing factors in combating poverty unemployment and inequality. The primary purpose of technical and vocational education and training is to prepare students and learners for the world of work and for a smooth transition from education institutions into the workplace. As the Fourth Industrial Revolution continues to create more radical changes in the labor market, experts are calling for a reform of education including vocational education and training and adult and professional education. **New Models for Technical and Vocational Education and Training** is an essential scholarly research book that examines TVET and CET colleges and programs that provide intermediate skills to enhance students' chances of employability and entrepreneurship in Industry 4.0. The book explores knowledge in respect to workforce preparation, digital skills development, teaching and learning of TVET, flexibility and articulation of TVET to respond to work, integrated learning and reskilling and upskilling to avoid skill mismatches. It is ideal for TVET schools, academicians, curriculum designers, managers, training officers, administrators, vocational professionals, researchers, and students.

Research Anthology on Vocational Education and Preparing Future Workers Management Association, Information Resources, 2022-04-08. Many students across the globe seek further education for future employment opportunities. Vocational schools offer direct training to develop the skills needed for employment. New emphasis has been placed on reskilling the workforce as technology has infiltrated all aspects of business. Teachers must be prepared to teach these new skill requirements to allow students to directly enter the workforce with the necessary competences intact. As the labor market and industry are changing, it is essential to stay current with the best teaching practices within vocational education courses to provide the future workforce with the proper tools and knowledge. The **Research Anthology on Vocational Education and Preparing Future Workers** discusses the development opportunities and challenges of vocational education courses and how to best prepare students for future employment. It presents the best practices in curriculum development for vocational education courses and analyzes student outcomes. Covering topics such as industry-academia collaboration, student satisfaction, and competency-based education, this major reference work is an essential resource for academic administration, pre-service teachers, educators of vocational education, libraries, employers, government officials, researchers, and academicians.
