Quick Check Sheet For Dsm Diagnosing:

The Family Systems Test (FAST) Thomas M. Gehring, Marianne Debry, Peter K. Smith, 2013-02-01 The Family System Test FAST developed by Thomas M Gehring is an important new tool for investigating family relations Based on the structural systemic theory of families it is a figural technique for representing emotional bonds cohesion and hierarchical structures in the family or similar social systems In this unique volume the editors draw on current theory and research in family or similar social systems together with a variety of empirical studies that have used the FAST to provide a comprehensive overview and assessment of the test and its use in various clinical research contexts The book is divided into four sections each focusing on a different aspect of the FAST Part 1 describes the concepts and psychometric properties of the FAST within the context of theoretically and empirically relevant aspects of the field of family psychology as a whole Special emphasis is given to systematic structural approaches to assessing individual and family functioning Part II focuses on the use of the FAST in developmental research For example the the FAST has been used to show how family constructs are influenced by age type of family and situation Part III deals with cross cultural issues and compares the interpersonal constructs of Japanese and Chinese families to Western families Finally Part IV addresses the applications of the FAST in clinical setting in diagnosis of biopsychosocial problems and planning and evaluation of clinical interventions The result is a book that helps to bridge the gap between theory practice and research It will be essential reading for users of the FAST and all clinicians and researchers who work in family relations and development

Textbook Of Behavioural Managed Care William L. Poynter, 2013-06-17 The changing role of managed care can be a daunting challenge to both experienced clinicians and students entering into the practice for the first time Managed care seems to have come out of nowhere and has affected the psychotherapy community so strongly that private practice clinicians are finding that they must reinvent their practices in order to work well with managed care systems The Textbook of Behavioral Managed Care presents in a well organized and comprehensive manner the basic definitions of managed care its effects on clinicians and most importantly how clinicians can respond to the pressures of managed care and still maintain the quality of their practices For experienced clinicians the information in this volume will prove invaluable in adapting to the ever increasing role of managed care for the student entering into practice the book is an essential tool for understanding the forces that managed care has brought into play The better managed care companies have two goals to stretch behavioral health resources and ultimately to improve quality In light of these two important tasks this book demonstrates that truly effective implementation of managed care requires sophistication of experienced knowledgeable specialized therapists The Textbook of Behavioral Managed Care will provide clinicians with a greater level of understanding that enables them to implement managed care in the most effective manner possible
