

90° ATTACHMENTS FOR MASTER MILLING HEAD

The Bridgeport 90° Attachments are designed to increase the scope and flexibility of the Bridgeport Turret Milling Machine.

These attachments are used for light milling, drilling, boring and reaming, horizontally.

They will prove indispensable for milling out pockets and cavities where operations of this type would otherwise prove difficult.

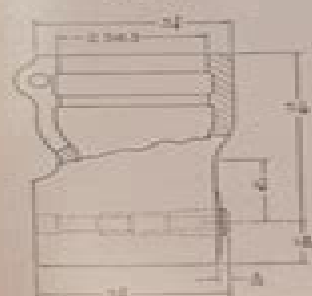

Each attachment is an integral unit in itself, the cutter spindle and driving spindle are mounted in their own anti-friction bearings. Mounting on Master Head simply requires slipping the attachment over the quill. The driving spindle is then held in our standard collet (same as holding an end mill) and must be tightened first; then the right angle attachment clamping screw is tightened to hold the unit firmly to the quill.

Quill Master Manual:

Adopting the Beat of Expression: An Psychological Symphony within **Quill Master Manual**

In a world eaten by monitors and the ceaseless chatter of instant conversation, the melodic elegance and psychological symphony developed by the written word frequently disappear into the backdrop, eclipsed by the relentless noise and disruptions that permeate our lives. Nevertheless, situated within the pages of **Quill Master Manual** a marvelous literary treasure full of fresh thoughts, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, that charming masterpiece conducts visitors on a psychological journey, well unraveling the hidden songs and profound influence resonating within each carefully crafted phrase. Within the depths of the emotional analysis, we will explore the book is main harmonies, analyze their enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
