The book has a new two color design with more illustrations and wider margins for notes. A companion Website offers the fully searchable text, additional material which is indicated in the book by icons, and a comprehensive examination. NMS Medicine Casebook Tilak Shah, 2008-11-01 Organized by subspecialty, this case based review covers all the information students are expected to learn during their internal medicine clerkship. Each topic begins with a brief patient history and a question about the most likely diagnosis or next step in management, followed by a discussion of alternative diagnoses and management strategies. The user friendly approach includes numerous algorithms, images, mnemonics, and tables. A companion Website will offer the fully searchable text. *Nms Medicine* Allen R.
