Johnson, 2019-04-16 An acclaimed economist reveals that school integration efforts in the 1970s and 1980s were overwhelmingly successful and argues that we must renew our commitment to integration for the sake of all Americans We are frequently told that school integration was a social experiment doomed from the start But as Rucker C Johnson demonstrates in *Children of the Dream* it was in fact a spectacular achievement Drawing on longitudinal studies going back to the 1960s he shows that students who attended integrated and well funded schools were more successful in life than those who did not and this held true for children of all races Yet as a society we have given up on integration Since the high point of integration in 1988 we have regressed and segregation again prevails Contending that integrated well funded schools are the primary engine of social mobility *Children of the Dream* offers a radical new take on social policy It is essential reading in our divided times **Research Methods in International Law** Deplano, Rossana, Tsagourias, Nicholas, 2021-07-31 This timely Handbook contains a wide ranging overview of the diverse research methods used within international law Providing an insightful examination of how international legal knowledge is analysed and adopted this Handbook offers the reader a deeper understanding on the role and place of research methods in international legal theory reasoning and practice *Holding Together* John Shattuck, Sushma Raman, Mathias Risse, 2022-05-31 A bold new assessment of the multipronged attack on rights in the United States and how to push back An

overwhelming majority of Americans agree that rights are essential to their freedom and that rights today are severely threatened. The promise of rights has been reimagined at pivotal moments in American history from the American Revolution to the Civil War to the Civil Rights Movement. Can today become another time of transformation? Holding Together is about the promise of rights as a source of American identity, the struggle to realize rights by countless Americans to whom the promise has been denied or not fulfilled, the hijacking of rights by politicians who seek power by dividing and polarizing, and the way forward in which rights can bring Americans together instead of tearing them apart. Drawing on a series of town hall meetings with representative groups of citizens across the country, discussing their concerns over rights, new national opinion polls from all demographic groups and political perspectives conducted in 2020 and 2021, and extensive research, Holding Together is a road map for an American rights revival. John Shattuck, Sushma Raman, and Mathias Risse present a comprehensive account of the current state of rights in the United States and concrete recommendations to policy makers and citizens on how to reclaim them.
