Eastern Europe National Geographic Magazine, 1941 *Great Desert Explorers* Andrew Goudie, 2016-12-01 Desert exploration like climbing Everest or polar expeditions is not for the faint hearted and many of the vivid tales within this fascinating biographical history end in tragedy. However, the informative and absorbing descriptions of the extraordinary journeys, challenges, and achievements of these intrepid figures are captivating. They risked their lives variously for good old fashioned epic adventure, solitude, fame, the answer to mythical questions, and some were even spies. They experienced fear, excitement, and hardship in their journeys into the unknown. There are many books on exploration, but remarkably few on desert exploration. Moreover, some of the great desert explorers of the last three hundred years are now very little remembered or appreciated in comparison, say, with those who ventured to the poles, climbed Everest, or sought the source of the Nile. Yet crossing unknown deserts is no less challenging. This volume finally brings these Great Desert Explorers into the limelight with short illustrated biographies of around 60 of the most interesting intrepid and important explorers of the world's greatest deserts. There is also a brief introduction to each desert region. The many original quotations, illustrations, and maps, contemporary figures, as well as plates of a range of desert landscapes, make this a colourful, lively, and informative read.

These experts provide perspective on the key changes brought by the new standards, including suggestions on designing lessons and two sample plans. Following the introduction, you'll find a wealth of books by category. Each section includes a listing of the top titles with brief, explicit annotations and key bibliographic data. Focus On articles are appended to appropriate categories to support in-depth curricular development.
