Debates in Information Technology: Amy J. Connolly, T. Grandon Gill , 2015 The purpose of this book is to highlight major debates in Information Technology IT that might be of interest to fledgling MIS students to help them get a sense of the big ideas in their field This book is intended for graduate and undergraduate audiences but is easily accessible to practitioners and students alike Each big idea is presented as a resolution for discussion one per chapter and each chapter opens with a broad overview of the resolution followed by pro and con discussions weighing the merits of the issue These informative

chapters should help students quickly get up to speed on the facts of the issue in order to stimulate more fruitful class discussion Chapters were authored and reviewed entirely by graduate students as part of an online class project spanning two semesters from 2013 to 2014 Over 80 students contributed to writing it Faculty editorship enhanced the chapters consistency and where necessary smoothed the writing style As a whole this work embodies an important achievement for which these students should be commended It shows once again just how capable students really are Gender and Climate Change Joane Nagel,2015-09-25 Does gender matter in global climate change This timely and provocative book takes readers on a guided tour of basic climate science then holds up a gender lens to find out what has been overlooked in popular discussion research and policy debates We see that around the world more women than men die in climate related natural disasters the history of science and war are intimately interwoven masculine occupations and preoccupations and conservative men and their interests drive the climate change denial machine We also see that climate policymakers who embrace big science approaches and solutions to climate change are predominantly male with an ideology of perpetual economic growth and an agenda that marginalizes the interests of women and developing economies The book uses vivid case studies to highlight the sometimes surprising differential gendered impacts of climate changes **Payroll Accounting** Bernard J.
