Jazz, a Listener's Guide James McCalla, 2000 This volume presents a study of jazz from its roots through the beginning of free jazz and jazz rock fusion to the trends of the present day, including the new swing revival. Emphasizing listening skills, this volume is written in a clear, personal, informal style and requires no prior knowledge or experience in music. The author introduces musical terms and concepts as needed and always in connection with specific recordings and jazz artists. His principal focus is to guide the beginning listener's ear rather than stress the rote memorization of names, styles, periods, titles, dates, and other facts. The book focuses on listening to specific performers and recordings and makes access to recordings easier and less expensive by using virtually all the selections from the Smithsonian Collection of Classic Jazz. The rest of the almost 200 selections discussed in the book come from other Smithsonian anthologies or from widely available classic jazz performances. In addition to these specific discussions, the book follows a historical organization by offering a brief orientation to each of the five main sections as background to understanding the music of that period. Third edition highlights. Includes additional material covering musical styles of the last decade of jazz's first century, features broader coverage of many artists included in earlier editions, deals with recent trends, including discussions of Wynton Marsalis, the Mingus Big Band, the new swing revival, and the Brian Setzer Orchestra, and a brief discussion of jazz on film.

Rowing the Atlantic Roz Savage,2009-10-06 STUCK IN A corporate job rut and faced with an unraveling marriage at the age of thirty six Roz Savage sat down one night and wrote two versions of her own obituary the one that she wanted and the one she was heading for They were very different She realized that if she carried on as she was she wasn t going to end up with the life she wanted So she turned her back on an eleven year career as a management consultant to reinvent herself as a woman of adventure She invested her life s savings in an ocean rowboat and became the first solo woman ever to enter the Atlantic Rowing Race Her 3 000 mile trial by sea became the challenge of a lifetime Of the twenty six crews that set out from La Gomera six capsized or sank and didn t make it to the finish line in Antigua There were times when she thought she had hit her absolute limit but alone in the middle of the ocean she had no choice but to find the strength to carry on In Rowing the Atlantic we are brought on board when Savage s dreams of feasts are nourished by yet another freeze dried meal When her gloves wear through to her blistered hands When her headlamp is the only light on a pitch black night ocean that extends indefinitely in all directions When one by one all four of her oars break When her satellite communication fails Stroke by stroke Savage discovers there is so much more to life than a fancy sports car and a power suit job Flashing back to key moments from her life before rowing she describes the bolt from the blue that first inspired her to row across oceans and how this crazy idea evolved from a dream into a tendinitis inducing reality And finally Savage discovers in the rough waters of the Atlantic the kind of happiness we all hope to find
