Sample Argumentative Research Paper:

Logical Argument in the Research Paper Russ Ward, 1997 Logical Argument in the Research Paper operates on the premise that collegiate level writing when cast in its most significant and sophisticated form is argumentative. Students are shown how writers examine a potential topic, establish a stance upon that topic, defend the stance, avoid reasoning and ethical errors, and in general say something meaningful about the topic. It also includes instruction about finding sources, gathering information from them, and correctly documenting them. However, the emphasis remains on how effective writers evaluate sources, think about the information they discover, prepare a fair and informed argument, rethink and revise the argument, and finally present an argument in its completed form. Logical Argument in the Research Paper will help students learn some of the reasoning processes that all writers use when composing the academic argument. *The Structure of Argument* Annette T. Rottenberg, Donna Haisty Winchell, 2011-08-03 The Structure of Argument covers critical thinking, reading, writing, and research. It is concise but thorough and presents everything students need in an affordable, compact format. The Structure of Argument includes questions, exercises, and writing assignments, and a full semester's worth of readings. Now presenting Aristotelian and Rogerian as well as Toulmin argument, it includes many fresh readings and additional support for academic writing to help students stake their claim. Its emphasis on Toulmin argument makes Structure highly teachable since the approach fits with the goals of the composition course. An electronic edition is available at half the price of the print book.

Elements of Argument Annette T. Rottenberg, Donna Haisty Winchell, 2011-08-03 Elements of Argument combines a thorough argument text on critical thinking, reading, writing, and research with an extensive reader on both current and timeless controversial issues. It presents everything students need to analyze research and write arguments. Elements of Argument covers Toulmin, Aristotelian, and Rogerian models of argument and has been thoroughly updated with current selections students will want to read. It now includes additional support for academic writing, making it a truly flexible classroom resource. An electronic edition is available at half the price of the print book. Read the preface. **Argumentative Style** Frans H. van Eemeren, Bart Garssen, Sara Greco, Ton van Haaften, Nanon Labrie, Fernando Leal, Peng Wu, 2022-07-15 Argumentative Style discusses the various ways in which the defence of a standpoint is given shape in argumentative discourse. In this innovative study, the new notion argumentative style introduced for this purpose is situated in the theoretical framework of the pragma-dialectical approach to argumentation. This means that the choices involved in utilising a particular argumentative style do not only concern the presentational dimension but also the topical selection and the audience adaptation of the strategic manoeuvring taking place in the discourse. In identifying the functional variety of the argumentative styles utilised in the political, the diplomatic, the legal, the facilitatory, the academic, and the medical domain, the point of departure is that these argumentative styles manifest themselves in the discourse in the argumentative moves that are made, the dialectical routes that are chosen, and the strategic considerations that are brought to bear. **Writing Made**
