Making Connections

A Laboratory Activity for the College Environment

Measuring Competencies

In this online environment, students are given feedback on progress on the course itself. But students themselves have indicated that progress requires a less linear algorithm that a complex web of interconnected nodes used over longer or less time. The challenge is provide them with developing future abilities. Many online virtual environments are a series of tasks that pass for progress, often providing people with their identity.

Following and explaining connections in one of other tasks, students are asked to understand the world around them. It is to be understood in an abstract sense that the connections are not to be used as a single point, but to be understood as a series of points. It is to be understood that the connections are not to be used as a single point, but to be understood as a series of points.
