

PRODUCTION MINOR™ Spray Dryer

- Versatile Spray Dryer for in-house research and small scale production
- Interchangeable atomization and powder discharge systems
- Sanitary design
- Standard modules for a wide range of configurations

Plant with single point powder collection in container under cyclone.

Rotary atomizer

Two-fluid nozzle, co-current

Two-fluid nozzle, fountain mode

Two-point powder collection: Coarse powders from the drying chamber base and fine powders from the cyclone.

Process-Spray Udo Fritsching,2016-08-01 This book describes the latest research on producing functional particles using spray processes The authors detail micro level elementary processes and phase boundaries process analysis scaling and modeling and macro level process functions and particle properties They include numerical simulations and particulars of experiments for deriving process conditions for particle production Spray Drying of Vaccines Cordin

Arpagaus,2023-04-03 This book addresses the stabilization of vaccine powders by spray drying and provides an overview of the current state of the art on a laboratory and industrial scale The book aims to familiarize readers with the advances in vaccine spray drying technology to understand its application potential better In particular the book addresses the design of aseptic spray dryers parameters affecting the spray drying process sterile powder processing cleaning procedures and powder filling In addition different drying technologies for the production of dry powder vaccines are compared to discuss the unique capabilities of spray drying as a particle technology for vaccines Special attention is given to research studies on spray dried vaccines published over the past 30 years with key findings from laboratory research to clinical trials Potential applications of spray dried vaccines and routes of administration are presented in detail Finally an outlook is given on how close the aseptic spray drying of vaccines is to the market and the challenges that need to be overcome to be commercially successful The book's target audience is academics researchers vaccine developers industry experts students and possibly funders including government agencies who are active in the field In addition the book is a reference source for those involved in the vaccine formulation and biopharmaceutical processing industry Discovery ,1965 **Tanganyika Trade Journal** ,1968 **The Chemical Engineer** ,2003 **Green Techniques for Organic Synthesis and Medicinal**
