Anderson, Mathieu Turgeon, 2022-07-22 This book presents a comprehensive examination of public opinion in the democratic world Built around chapters that highlight key explanatory frameworks used in understanding public opinion the book presents a coherent study of the subject in a comparative perspective emphasizing and interrogating immigration as a key issue of high concern to most mass publics in the democratic world Key features of the book include Covers several theoretical issues and determinants of opinion such as the effects of personality age and life cycle ideology social class partisanship gender religion ethnicity language and media highlighting over time the effects of political social and economic contexts Each chapter explores the theoretical rationale mechanisms of effect and use in the scholarly literature on public opinion before applying these to the issue of immigration comparatively and in specific places or regions Widely comparative using a nine country sample Australia Canada France Germany Italy Portugal Switzerland the United Kingdom and the United States of America in the analysis of individual level determinants of public opinion about immigration and extending to other countries like Belgium Brazil and Japan when evaluating contextual factors This edited volume will be essential reading for students scholars and practitioners interested in public opinion political behaviour voting behaviour politics of the media immigration political communication and more generally democracy and comparative politics No Substitute for Competence Simon Lanz, 2020-01-08 Issue ownership theory is a tale of two actors On the one hand it theorizes how parties compete with each other in their struggle for votes On the other hand issue ownership is about the citizen It claims that voters are more likely to support a party if they think it is competent to handle issues they care about This book provides unique insights into the undertheorized and understudied links between party competence and the vote It argues that issue ownership voting or competence based voting consists of three assumptions First voters are primarily interested in having issues handled by a competent party Unlike in other issue voting models this implies that voters are reluctant or unable to deal with the specificities of the exact solution to a political problem Though positional considerations feed into evaluations of party competence other factors are important too This is reflected by the second assumption following which issue handling competence is a subjective preference with various sources Third competence is more decisive in the decision making process if the voter cares deeply about the issue These three assumptions yield the key formula of issue ownership voting Voters support the most competent party on the most important issue *PSAT/NMSQT Prep 2022-2023 with 2 Full Length Practice Tests, 2000+ Practice Questions, End of Chapter Quizzes, and Online Video Chapters, Quizzes, and Video Coaching* Kaplan Test Prep, 2022-06-07 Kaplan's PSAT NMSQT Prep 2022-2023 gives you the expert strategies clear explanations and realistic practice you need to feel confident and prepared on test day This edition includes hundreds of practice questions and a layout based on student feedback This PSAT guide will prepare you for the last paper pencil test before the digital PSAT launches in fall 2023 We're so certain that PSAT NMSQT Prep offers all the guidance you need to excel on the PSAT that we guarantee it After studying with our online
