The Global Foundations of Public Relations
 Robert E. Brown, Burton St. John III, Jenny Zhengye Hou, 2021-09-27 *The Global Foundations of Public Relations* Humanism China and the West explores the growing humanistic turn in public relations processes and proposes that this has compelling parallels in the roots of Chinese philosophies As the leader of growth and power across the Pacific Rim public relations in China is not developing in isolation from the West but via mutual accommodations and culturally complex interactions By collecting cases and reflections on PR practices from both Chinese and Western scholars the chapters propose that Chinese philosophies are playing a role in the development of modern Chinese PR practices and focusing less on the obvious differences and contrasts seek to highlight their spiritual philosophical and political confluences The conclusions drawn enhance and advance our understanding of public relations globally This innovative work is of interest to educators and researchers in the fields of public relations strategic communications and public diplomacy

Public Garden Management: a Global Perspective Bijan Dehgan, 2014-04-16 Public Gardens Management A Global Perspective provides essential information about public gardens and what is involved in designing managing and maintaining one Although suitable as a textbook its audience will include anyone with direct or peripheral responsibility for administration or supervision of a complex organization that requires scientific knowledge as well as public relations and business acumen It may also prove useful for homeowners for there is no fundamental difference between growing plants in a public garden or a home garden a fact reflected in the extensive reference citations The topic is multidisciplinary and as old as the beginning of human civilization when the concept of mental and physical restoration was realized by early man while he she was in a natural but well ordered garden environment Thus began the art of garden making Many volumes have been written on every applicable subject discussed in this and similar publications Indeed the voluminous literature on history design horticulture and numerous related subjects is nothing short of overwhelming Accordingly anyone involved in management of public gardens whether as a director or area supervisor and irrespective of the type and size of such facility would have to have familiarity with various aspects of garden organization and administration However despite the enormous number and diversity of such publications there are very few books that deal

with the multiplicity of the topics in such a manner as to be practical in approach and cover most relevant and unified issues in a single book These volumes provide the essential background information on plants animals management maintenance fundraising and finances as well as history art design education and conservation They also cover a host of interrelated subjects and responsible organization of such activities as creating a childrens garden horticultural therapy conservatories zoological gardens and parks hence administration of multidimensional public gardens Nearly 500 full color plates representing illustrations from gardens in more than 30 countries are provided to assist and guide students and other interested individuals with history and the fundamental issues of public garden management The 15 chapters begin with the need for public gardens types of public gardens historical backgrounds as well as design diversity Numerous quotations are included from many garden lovers landscape architects philosophers and others The authors primary aim in writing this book was based on the confidence that a relevant reference between the encyclopedic nature of some and the specific subject matter of others could be used to provide fundamental information for management of public as well as private gardens The boundary between botanical and zoological gardens and parks is no longer as distinct as it once was In part it is because a garden is not a garden without plants and in part it has become apparent that for all practical intents and purposes all animals need plants for their survival Visitors of zoological gardens expect to see more than just animals zoos are landscaped grounds Moreover most communities find it financially difficult to simultaneously operate a botanical garden or an arboretum as well as a zoological garden and city parks A number of public gardens are currently referred to as botanical and zoological garden Population density and the publics desires and expectations as well as financial requirements are among the reasons for some major city parks such as Golden Gate in San Francisco Central Park in New York City and Lincoln Park in Chicago which integrate botanical or zoological divisions as well as museums and recreational facilities While this book attempts to provide basic principles involved in public garden management it does not claim to be a substitute for broader familiarity

The Global Public Relations Handbook Krishnamurthy Sriramesh,Dejan Verčič,2019-10-21 In this third edition The Global Public Relations Handbook Theory Research and Practice offers state of the art discussions of the global public relations industry blending research based theory with practice and presented in essays from both academics and practitioners This edition s 28 essays in three sections take into account changes in the global communication landscape especially in the last ten years The first section contains essays that provide conceptual linkages between public relations and international political systems economic systems and levels of development societal culture different media systems including digital media and activism Essays in the second section discuss the communication of various global actors such as corporations including family owned enterprises non profits governments and public sector enterprises global public relations agencies IGOs such as the European Union and NATO and informal organizations such as hactivist groups terrorists and failed states The third section discusses key global communication issues such as climate change character assassination

as a communication tool internal communication risk and crisis communication public affairs and public diplomacy This will be an essential resource for students and researchers of public relations strategic communication and international communication
