Mangrove Ecology, Silviculture and Conservation Peter Saenger,2013-06-29 Mangroves are a fascinating group of plants that occur on tropical and subtropical shorelines of all continents where they are exposed to saltwater inundation low oxygen levels around their roots high light and temperature conditions and periodic tropical storms Despite these harsh conditions mangroves may form luxuriant forests which are of significant economic and environmental value throughout the world they provide coastal protection and underpin fisheries and forestry operations as well as a range of other human activities This book provides an up to date account of mangrove plants from around the world together with silvicultural and restoration techniques and the management requirements of these communities to ensure their sustainability and conservation All aspects of mangroves and their conservation are critically re examined Those activities which threaten their ongoing survival are identified and suggestions are offered to minimise their effects on these significant plant communities

Creating and Restoring Wetlands Christopher Craft,2022-05-12 *Creating and Restoring Wetlands From Theory to Practice* Second Edition describes the challenges and opportunities relating to the restoration of freshwater and estuarine wetlands in natural agricultural and urban environments in the coming century This second edition is structured by clearly defined chapters based on specific wetland types e g

Peatlands Mangroves and with a consistent and coherent organization for ease of discoverability The table of contents is divided into four main subjects Foundations Restoration of Freshwater Wetlands Restoration of Estuarine Wetlands and From Theory to Practice each with multiple chapters Part 1 Foundations contains chapters describing definitions of wetlands ecological theory used to guide restoration and considerations on where to implement restoration on the landscape In Parts 2 and 3 restoration of specific freshwater marshes forests peatlands and estuarine tidal marshes mangroves wetlands are described Part 4 From Theory to Practice contains chapters describing performance standards to gauge success of projects and case studies describing small scale and large scale restoration projects of various freshwater and estuarine wetlands Each chapter contains clearly labeled sections which assist the reader to quickly and easily key in on the subject matter that they are seeking The approach of Creating and Restoring Wetlands is unique in that in each chapter it links ecological theory important to ecosystem restoration with practical techniques to undertake and implement successful wetland restoration projects including recommendations for performance standards to gauge success as well as realistic expectations and timescales for achieving success Each chapter ends with a summary table describing keys to ensure success for a given wetland ecosystem Each chapter ends with a summary table describing keys to ensure success for a given wetland ecosystem Written by a single author providing a consistent structure that is coherent cohesive and well referenced Contains case studies of small and large scale restoration activities ensuring relevance to individuals and organizations

Learning, Work and Practice: New Understandings Paul Gibbs, 2012-08-14 This book's original contribution to a crowded literature on work and learning will attract strong international interest Its focus on the philosophy of learning at work brings a fresh perspective on a topic normally viewed through psychological anthropological and sociological eyes It assembles a host of internationally recognized scholars who reflect on the various philosophies of work based learning Full of distinctive and original contributions that provide perceptive insights into the subject the work will be a practical support to teachers trainers and researchers at the same time as it gives readers a clear philosophical grounding in learning at work It is however not simply a book about philosophy but a gazetteer of approaches to education in work that will sustain and inspire those who provide engage in and support the learning of new knowledge and skills in the workplace With adaptability to new employment opportunities so vital to existing workers the authors stand behind continued provision of work based learning in the face of tightening economic constraints

Lifestyle Migration Michaela Benson, 2016-05-06 Relatively affluent individuals from various corners of the globe are increasingly choosing to migrate spurred on by the promise of a better and more fulfilling way of life within their destination Despite its increasing scale migration academics have yet to consolidate and establish lifestyle migration as a subfield of theoretical enquiry until now This volume offers a dynamic and holistic analysis of contemporary lifestyle migrations exploring the expectations and aspirations which inform and drive migration alongside the realities of life within the destination It also recognizes the structural conditions and constraints which frame

lifestyle migration laying the groundwork for further intellectual enquiry Through rich empirical case studies this volume addresses this important and increasingly common form of migration in a manner that will interest scholars of mobility migration lifestyle and culture across the social sciences

For a Church to Come Peter C. Blum, 2013-03-05 Taking a cue from one of the most famous postmodern thinkers Friedrich Nietzsche the essays in this book put forth experiments in thought rather than arguments for fixed conclusions Blum brings John Howard Yoder to the same table with Nietzsche Michel Foucault and Jacques Derrida and provides a provocative glimpse of what the resulting conversation might look like As Anne Lamott and others have recently insisted faith is not the opposite of doubt but of certainty Blum's essays explore some of our commonly held ways of talking about knowledge meaning commitment and action He suggests that some postmodern theoretical work often dismissed or assumed to be anti Christian is well worth bringing into contemporary Anabaptist Mennonite conversations about discipleship and corporate life Part of the Polyglossia series this book is intended for conversation among academics ministers and laypersons regarding knowledge beliefs and practices of the Christian faith

Deportation and the Confluence of Violence within Forensic Mental Health and Immigration Systems Ameil J. Joseph, 2016-04-29 The practices and technologies of evaluation and decision making used by professionals police lawyers and experts are questioned in this book for their participation in the perpetuation of historical forms of colonial violence through the enforcement of racial and eugenic policies and laws in Canada

Subtropical Mountain Forests of Las Yungas: Vegetation and Bioclimate Gabriela S. Entrocassi, Rosario G. Gavilán, Daniel Sánchez-Mata, 2019-11-15 The vegetation addressed in this book is biologically one of the most diverse on Earth with many characteristic taxa offering refuge and food sources for many resident and migratory animals Yet the forests of Las Yungas remain poorly known from a floristic and vegetation point of view This book seeks to fill that gap by studying the distribution of forest along an altitudinal but also a bioclimatic gradient The richness in species demonstrates that these forests are substantially more diverse than other subtropical mountain woodlands 103 diagnostic characteristic or indicator species were selected of which 29 are dominant 67 are exclusive selective preferential or differential and 7 are stenotic In addition 13 communities were identified and characterized These forests can be attributed to the Bolivian Tucuman biogeographical province South Andean Region Neotropical Sub Kingdom They are seasonal semi deciduous or evergreen micro and mesowoodlands growing on foothills hillsides ravines gorges and the edges of mountain ranges terrestrial communities as well as river terraces and beaches riparian communities Thanks to the range of new findings the content presented here will benefit experts in related fields such as geographers ecologists and botanists but also teachers nature guides those involved in the management of forest or conservation areas and policymakers
