Parliament. House of Commons. Environmental Audit Committee,John Horam,1998 *Budget 2009* Great Britain. Treasury,2009 The Budget sets out the Government's plans for taxation public spending and economic growth for the coming year Details announced include an annual growth rate of 2.5 per cent for 2006 07 with a forecast of 2.75 to 3.25 per cent for 2007 08 an inflation rate of two per cent this year and public sector borrowing on course for a 16 billion surplus over the economic cycle ending in 2010 11 with net borrowing set at 37 billion for this year and 36 billion next year falling to 23 billion in the year to 2010 11 **Pre-Budget Report** Great Britain. Parliament. House of Commons. Environmental Audit Committee,2002 This document details the Government's reply to the Committee's report HC 363 I ISBN 0215001710 on the environmental tax measures contained within the Pre Budget Report 2001 and its likely implications for the environment and sustainable development Other matters discussed include the role of the Treasury the Spending Review 2002 and the need for greater clarity and transparency in the figures set out in spending reviews and budgets **The 2006 pre-budget report** Great Britain: Parliament: House of Commons: Treasury Committee,2007-01-25 This report from the Treasury Committee examines

the recent economic analysis and assessment of the UK economy as outlined in the 2006 pre budget report and sets out a number of conclusions and recommendations including the Committee welcomes the recent rise in the growth rate of business investment but with the caveat that the downside risk as highlighted in a previous weakness for business investment remains unexplained that several risks exist around the consumption growth forecast including the potential of house prices to fall and the increase of personal insolvency the employment rate rise is commended but a lack of migration statistics in relation to the labour market means an overall assessment is not possible although an improved forecast for economic growth in 2006 the Treasury has not forecast an improvement in the fiscal position the Government appears to be on track to meet the golden rule in the current economic cycle but will start the next economic cycle with its current budget in deficit the Committee recommends also that the Treasury in future Budgets and Pre Budget reports provide a fuller explanation of its current forecast of the start and end dates of the current economic cycle also future Budget and Pre Budget reports should provide a breakdown of reported efficiency gains by department and further to enhance transparency and enable effective scrutiny the Treasury should require departments in their departmental annual reports and Autumn Performance reports in 2007 and in later years to provide consistent and comprehensive information on progress against efficiency targets the Committee expressed dissatisfaction at the lateness and vagueness of information in relation to expenditure on education but approved the early announcement of capital spending plans for education up to 2010 11 the Committee though does welcome the Government's decision to commission and publish a range of reviews informing future economic policy including tax policy the Pre Budget report is seen as an effective instrument of fiscal consultation but this could be enhanced if Parliament and the public were given greater notice of the date of the report perhaps 4 weeks before the statement is due to be made where tax changes carry significant risk of forestalling activity or distorting market behaviour such as the unusual timing and implementation of the increases in Air Passenger Duty the Committee feels as a general rule that those increases should not come into force until the House of Commons has had an opportunity to come to a formal decision on such an increase
