

Chapter 11: Questions 1-10

Short answer: A long-answer question involving the system of equations below represents a straight answer for this course.

Given:

Equation(s):

Directions: Complete the following statements for your hypothesis. Consider one of the systems as "increasing," "decreasing," "stable," or "other," and complete the following words.

If the constant (number) increases, the value of the (variable) (number) will (increase or decrease) to reach the state equilibrium.

If the constant (number) decreases, the value of the (variable) (number) will (increase or decrease) to reach the state equilibrium.

If the constant (number) increases, the value of the (variable) (number) will (increase or decrease) to reach the state equilibrium.

If the constant (number) decreases, the value of the (variable) (number) will (increase or decrease) to reach the state equilibrium.

Answer: The student's answer is not expected to be that long. The student's answer should be a short answer (only a few words) for the question, not the entire answer, and include the given hypothesis.

For this question, the student's answer is not valid through the simulation.
