Notes For A Perspective On Beauty And Art:

Romanticism, Hermeneutics and the Crisis of the Human Sciences Scott Masson, 2016-03-31 First published in 2004 This study begins by surveying the field of modern hermeneutics Noting its repeated crisis of self legitimisation it traces these to circular beliefs bequeathed by Romanticism that human nature is self begetting and can thus be known intimately and autonomously After providing a historical overview of how human nature had been understood the focus shifts to the attack in Coleridge s Biographia Literaria on Wordsworth s 1802 Preface to Lyrical Ballads and to a reading of some key Romantic texts It reads Coleridge s famous definition of the imagination as an attack on Romantic hermeneutics roots in the traditional view that man has been created in Imago Dei This title will be of interest to students of literature Beauty (and the Banana) Brian C. Nixon, 2021-05-11 What is it that makes something beautiful Is beauty solely in the eye of the beholder or something deeper more significant In Beauty and the Banana Nixon writes as an introductory book for Christian leaders providing the reader an overview of the historical hermeneutical and heuristic considerations of beauty Using the artwork Comedian a banana taped to a wall by Italian artist Maurizio Cattelan as a springboard Nixon addresses various fundamental factors of beauty ontology being teleology form and understanding and immutability transcendence and eternity Integrating poetry and classical ideals throughout Beauty and the Banana s response to the above questions may surprise all who read beauty is more than meets the eye *Notes for a Perspective on Beauty and Art* Mauro Mantovani, 2015-01-13 This book deals with subjects of a philosophical and theological nature particularly seen from an ontological and anthropological pedagogical perspective with respect to the concept of artistic and cultural thus giving rise to reflections on the themes of Beauty and Art The volume offers also some notes and reflections on the relationship between Catholic Church and Art from the Second Vatican Council to today useful not only for experts in these fields but also for all those wish to work in planning and promoting artistic and cultural events especially concerning Christianity or are engaged in related training and educational activities **Beauty: Exploring Critical Perspectives** Pierre Wilhelm, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Rather than accept society s preferred metaphors about beauty at face value the authors in this volume question the fact that beauty can also surprise us in the least foreseeable setting at the most unexpected moment and in the most surprising or unsettling ways Their work underscores beauty s ephemeral transitory fleeting and at times confounding nature The way beauty reveals itself to us they point out may challenge or even contradict established conventions norms and values about aesthetics The emergence of unconventional metaphors and analogies about beauty in these chapters calls on us to pay attention to competing and seemingly intractable connotations of fear darkness ugliness oppression repression callousness and dejection that won t leave us indifferent to their appeal How we as researchers envisage beauty as a topic of investigation tells us as much about our conceptualization of beauty arising from particular scientific perceptions as about the language and symbols that express this perception It raises the important

question about why we rely on conceptual constructs to explain beauty and whether beauty remains a mystery to be explored or ultimately one best left unexplained Plato on Art and Beauty Alison Denham,2012-03-29 This unique collection of essays focuses on various aspects of Plato's Philosophy of Art not only in The Republic but in the Phaedrus Symposium Laws and related dialogues The range of issues addressed includes the contest between philosophy and poetry the moral status of music the love of beauty censorship motivated emotions Hannah Arendt and Simone Weil Kathryn Lawson,Joshua Livingstone,2024-02-22 Hannah Arendt and Simone Weil were two of the most compelling political thinkers of the 20th century who despite having similar life experiences developed radically distinct political philosophies This unique dialogue between the writings of Arendt and Weil highlights Arendt's secular humanism her emphasis on heroic action and her rejection of the moral approach to politics contrasted starkly with Weil's religious approach her faith in the power of divine Goodness and her other centric ethic of suffering and affliction The writings here respect the profound differences between Arendt and Weil whilst pulling out the shared preoccupations of power violence freedom resistance responsibility attention aesthetics and vulnerability Without shying away from exploring the more difficult concepts in these philosophers works Hannah Arendt and Simone Weil also aims to pull out the relevance of their writings for contemporary issues **Of leaf beauty. Of cloud beauty. Of ideas of relation** John Ruskin,1894 **Theological Perspectives on God and Beauty** Graham Ward,Edith Wyschogrod,2003-08-01 Eminent theologians John Milbank Graham Ward and Edith Wyschogrod discuss aesthetics placing radical orthodoxy in dialogue with postmodern theology The Evolution of Beauty Richard O. Prum,2017-05-09 A FINALIST FOR THE PULITZER PRIZE NAMED A BEST BOOK OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW SMITHSONIAN AND WALL STREET JOURNAL A major reimagining of how evolutionary forces work revealing how mating preferences what Darwin termed the taste for the beautiful create the extraordinary range of ornament in the animal world In the great halls of science dogma holds that Darwin's theory of natural selection explains every branch on the tree of life which species thrive which wither away to extinction and what features each evolves But can adaptation by natural selection really account for everything we see in nature Yale University ornithologist Richard Prum reviving Darwin's own views thinks not Deep in tropical jungles around the world are birds with a dizzying array of appearances and mating displays Club winged Manakins who sing with their wings Great Argus Pheasants who dazzle prospective mates with a four foot wide cone of feathers covered in golden 3D spheres Red capped Manakins who moonwalk In thirty years of fieldwork Prum has seen numerous display traits that seem disconnected from if not outright contrary to selection for individual survival To explain this he dusts off Darwin's long neglected theory of sexual selection in which the act of choosing a mate for purely aesthetic reasons for the mere pleasure of it is an independent engine of evolutionary change Mate choice can drive ornamental traits from the constraints of adaptive evolution allowing them to grow ever more elaborate It also sets the stakes for sexual conflict in which the sexual autonomy of the female evolves in response to male sexual control Most crucially this

framework provides important insights into the evolution of human sexuality particularly the ways in which female preferences have changed male bodies and even maleness itself through evolutionary time The Evolution of Beauty presents a unique scientific vision for how nature's splendor contributes to a more complete understanding of evolution and of ourselves

Art and the Beauty of God Richard Harries, 2005-01-01 British bishop argues for a distinctively Christian approach to art

Aquinas on Beauty Christopher Scott Sevier, 2015-02-12 Aquinas on Beauty explores the nature and role of beauty in the thought of Thomas Aquinas Beginning with a standard definition of beauty provided by Aquinas it explores each of the components of that definition The result is a comprehensive account of Aquinas's formal view on the subject supplemented by an exploration into Aquinas's commentary on Dionysius's Divine Names including a comparison of his views with those of both Dionysius and those of Aquinas's mentor Albert the Great The book also highlights the tight connection in Aquinas's thought between aesthetics and ethics and illustrates how Aquinas preserves what is best about aesthetic traditions preceding him and anticipates what is best about aesthetic traditions that would follow marrying objective and subjective aesthetic intuitions and charting a kind of via media between the common extremes

Tragic Beauty in Whitehead and Japanese Aesthetics Steve Odin, 2016-05-19 The present volume endeavors to make a contribution to contemporary Whitehead studies by clarifying his axiological process metaphysics including his theory of values concept of aesthetic experience and doctrine of beauty along with his philosophy of art literature and poetry Moreover it establishes an east west dialogue focusing on how Alfred North Whitehead's process aesthetics can be clarified by the traditional Japanese Buddhist sense of evanescent beauty As this east west dialogue unfolds it is shown that there are many striking points of convergence between Whitehead's process aesthetics and the traditional Japanese sense of beauty However the work especially focuses on two of Whitehead's aesthetic categories including the penumbral beauty of darkness and the tragic

beauty of perishability while further demonstrating parallels with the two Japanese aesthetic categories of *y gen* and *aware*. It is clarified how both Whitehead and the Japanese tradition have articulated a poetics of evanescence that celebrates the transience of aesthetic experience and the ephemerality of beauty. Finally it is argued that both Whitehead and Japanese tradition develop an aesthetics of beauty as perishability culminating in a religious aesthetic vision of tragic beauty and its reconciliation in the supreme ecstasy of peace or nirvana.

Modern Painters: pt. 6. Of leaf beauty. pt. 7. Of Cloud beauty. pt. 8-9. Of ideas of relation John Ruskin, 1860 *Academy Notes* Buffalo Fine Arts Academy, 1918 *Course of Study in Art Education, Years I-XII*. Pennsylvania. Department of Public Instruction, 1923 **Beauty, Art, and the Polis** Alice Ramos, 2000 Introduction by Ralph McInerny The essays in this volume indebted in great part to Jacques Maritain and to other Neo Thomists represent a contribution to an understanding of beauty and the arts within the Aristotelian Thomistic tradition. As such they constitute a different voice in present day discussions on beauty and aesthetics, a voice which nonetheless shares with many of its contemporaries concern over questions such as the relationship between beauty and morality, public funding of the arts and their educational role, objective and universal standards of what is beautiful. In the tradition in which the contributors of this volume reflect, beauty manifests itself in the order of the universe, an order that provides human reason with a window onto the transcendent. For Aristotle and Aquinas the natural order grounds both art and morality, and yet it is this very order which has been called into question by modern science and philosophy. Instead of pointing us to a suprahuman order, the beautiful then points to the order of human freedom and creativity. Reflection on the beautiful since the modern philosopher Immanuel Kant has thus often taken a subjectivistic turn. Because of the importance of beauty and art in human existence, in man's education and life as a moral and political being, an alternative should be sought to any reduction of the beautiful to a purely subjective experience or cultural construct. The Aristotelian Thomistic tradition in dialogue with modern and contemporary conceptions of the beautiful provides us with just that alternative, and thus the essays herein represent a decisive step in the journey for Thomistic aesthetics.

Beauty James Kirwan, 1999 This is a pathbreaking comparative and transnational study of the neglected influences of nation, empire and race upon the development and electoral fortunes of the Labour Party in Britain and the Australian Labor Party from their formative years of the 1900s to the elections of 2010. Based upon extensive primary and secondary source based research in Britain and Australia over several years, it makes a new and original contribution to the fields of labour, imperial and British world history.
