Peña,2007 According to President Bush the American people are safer as a result of invading Iraq True Saddam Hussein has been removed from power But al Qaeda the group that planned and carried out the attacks on September 11 remains at large Meanwhile the White House has conceded that Saddam Hussein had nothing to do with the attacks Charles Pe a argues that the war in Iraq is but one misstep in the Bush administration s global war on terror Terrorism is simply a tactic however not an enemy Trying to eradicate it is a quixotic quest that does not focus on those responsible for 9 11 Instead the national security strategy should consist of three central elements establishing homeland security against further attacks dismantling the al Qaeda terrorist network and enacting a foreign policy that does not attract new al Qaeda terrorists This approach requires restructuring U S forces and ending Cold War era commitments that distract from the current pressing threat It also requires ameliorating the negative consequences of an interventionist U S foreign policy which creates incentives and opportunities for terrorists to target the United States If we misdiagnose al Qaeda s motivations or focus military efforts on the wrong targets then we run the risk that the war against the al Qaeda terrorist threat and the radical Islamic ideology it represents will become a broader war against the Islamic world that could last generations and cost countless lives With a foreword by Michael Scheuer the bestselling author
